- Baby PCR Test Positive around 6 Weeks: 0.3
- Baby HIV test Positive at 18 months rate:
  - Target Q4 13/13: 0%
  - Actual Q4 13/14: 1.80%
  - Target Q1 14/14: 0%
  - Actual Q 14/15: 1.60%
  - Target Q2(14/15): 0%
  - Actual Q2(14/15): 0.3%
  - Target Q 1/15: 0%
  - Actual Q 1/15: 0.70%
  - Target Q2(15/15): 2%
  - Actual Q2(15/15): 1.40%
  - Target Q3(15/15): 90%
  - Actual Q3(15/15): 90%
Activities/Interventions moving forward

• Early identification of pregnant women by CCGS during household visit and pre registration of all pregnant women to Mom Connect in order to facilitate Antenatal early booking before 20 weeks and early screening for HIV.

• Screening of antenatal clients for HIV at booking and initiation of ART for all HIV positive women for effective PMTCT

• Training of staff on PMTCT and HIV new guidelines (2014 guidelines)
Activities/Interventions moving forward

• Initiation of HAART to all pregnant women irrespective of CD4 cell count as life long and ensuring viral suppression for all breastfeeding women to prevent mother to child transmission of HIV infection.

• Training of staff on management of obstetric emergencies.

• Integration of PMTCT programme to Operation Sukuma Sakhe discussing priority indicators e.g. antenatal early booking
HCT & TB Screening

Number of new HIV test Carried out
- Q4 Target (13/14): 45647
- Q4 Actual (13/14): 41892
- Q1 Target (14/15): 41006
- Q1 Actual (14/15): 32552
- Q2 Target (14/15): 40003

Number of positive cases
- Q4 Target (13/14): 82167737
- Q4 Actual (13/14): 5859
- Q1 Target (14/15): 54512
- Q1 Actual (14/15): 7201
- Q2 Target (14/15): 3647

Number of new TB cases
- Q4 Target (13/14): 0
- Q4 Actual (13/14): 380
- Q1 Target (14/15): 610
- Q1 Actual (14/15): 710
Activities/Interventions moving forward

• Train all Nurse categories on Provider Initiated Counseling and Testing.

• Facilitate monthly visits to 100% FETs for rendering of health services.

• Involve CCGs in community mobilization for outreach events.

• Ensure quality data improvement plans are implemented.
HCT LAUNCH

• National Launch was on the 29th of September 2013, at Ingula Pump Station – Eskom site

• Launch integrated two provinces – FS (Mofutsanyane District and KZN(Uthukela District)

• At Uthukela we targeted Umnambithi Local Municipality

• We have partnered with Eskom, Duduza, HST(Health Systems Trust), Mpilonhle, LGBTI(lesbians, gays, bisexual, transgender, individuals), NHLS (National health Laboratory Services), Right to Care, FPD(Foundation for Professional Development), SACTWU(South African Textile Workers Union), SANDF, SAPS and TB and HIV Care Associations
Objectives of the HCT Campaign

- **Mobilize** people to know their status.
- **Support** people with key prevention messaging in order to take proactive steps to a **healthy lifestyle** irrespective of HIV status
- **Increase incidence** of health seeking behaviour; and
- **Increase access** to treatment, care and support
Rationale for the Revitalization

- Strengthen HCT and linkages to care
- Create an enabling environment for all South Africans to test for HIV at least once a year
- To encourage a culture of preventive health seeking behavior
- Strengthen the capacity of AIDS Councils to mobilize communities and coordinate campaigns

Comprehensive ART Services

DC 23 Comprehensive ART performances - Q2

- Total number of patients on ART
- Number of ART clients de-registered due to loss to follow up
- Number of patients de-registered due to death

Q4 Target (13/14)
Q4 Actual (13/14)
Q1 Target (14/15)
Q1 Actual (14/15)
Q2 Target (14/15)
Q2 Actual (14/15)
Continues:

• District is on target for the initiation of adults
• Number of children initiated ART is not increasing fast because the District has a PCR positivity rate of 0.3%
Activities/Interventions moving forward

• Strengthen integration of HAST Programmes.

• Promote integration of HIV/AIDS, TB, MNCWH, and Nutrition Programmes in the management of children and adolescent infected or not infected with HIV.

• Strengthen initiation of prophylactic treatment to clients with TB and HIV.

• Improve treatment adherence.
Coordination, Monitoring and Evaluation

Chart Title

Number of LAC Submiting reports to DAC

Number of WAC submitting Reports to LAC

- Q4 Target (13/14)
- Q4 Actual (13/14)
- Q1 Target (14/15)
- Q1 Actual (14/15)
- Q2 Target (14/15)
- Q2 Actual (14/15)
M & E

• 3 LAC’s –submitting reports to DAC viz: Imbabazane, Indaka and Ukhahlamba

• 36 WAC’s out of 73 are functional and submitting reports to LAC

• There are upcoming planned WAC training for Indaka and Imbabazane will strengthen reporting systems

• Some of the Local do not have a dedicated HIV coordinator-recruit permanent official
