Number of registered OVC receiving care and support
Discussions

- Target was not reached due to December holidays, Home Based Care Centers were not functional.
- Most Social Workers were on leave for December Holiday
- Two Community Care Givers ‘s passed on at kokstad, that led to the decline of statistics from kokstad
There are 97 child and youth care workers who are in learnership programme.

They were in their theory programme during the reporting period.

They are currently exposed in their field work which will assist in early identification of OVC’s.
Strategic Objective 1: Addressing Social & Structural Drivers of HIV & AIDS, STI & TB Prevention Care & Impact Life Skills

Number of Learners Pregnant

- Q4 2013/2014 (Jan - Mar 2014): 126
- Q1 2014/2015 (April - June 2014): 169
- Q2 2014/15 (Jul-Sep 2014): 212

[Bar chart showing number of learners pregnant by quarter]
Learner pregnancy statistics remains a challenge to collect.

Pregnancy not always reported by parents.

Only two sub districts reported (UMzimkhulu and Greater Kokstad) the rest of other sub-districts reported zero.
Strategic Objective 2: Prevention of new HIV, STIs and TB Infections

PMTCT

Baby PCR tested positive around 6 weeks rate

Strategic Objective 2: Prevention of new HIV, STIs and TB Infections

PMTCT

Baby HIV antibody test positive at 18 months rate
Strategic Objective 2: Prevention of new HIV, STIs and TB Infections
PMTCT

Number of infant deaths in public health facilities

- Q4 2013/2014 (Jan - Mar 2014): 77
- Q1 2014/2015 (April - June 2014): 31
- Actual Q2 2014/15 (Jul - Sep 2014): 57

Number of infant deaths in public health facilities
Number of maternal deaths in public health facilities

- Q4 2013/2014 (Jan - Mar 2014): 0
- Q1 2014/2015 (April - June 2014): 1
- Actual Q2 2014/15 (Jul - Sep 2014): 4
- Q3 2014/15 (Oct - Dec 2014): 0

Strategic Objective 2: Prevention of new HIV, STIs and TB Infections

PMTCT
• In patient death under 1 year and under 5 years mortality remains high and is increasing particularly from UMzimkhulu, Greater Kokstad Sub-Districts.
• This could be attributed to delays in seeking medical help.
• Some patents present at critical stages with more that one illness.
• No maternal deaths were reported in Q 3.
• Close monitoring will be done to sustain the status quo.
To strengthen community awareness on importance of early Antenatal clinic bookings, post natal care and post-partum care for babies.

- CCG’s and Family health team to identify un-booked pregnant women during home visits and refer them to the clinics.
- All unbooked women post-delivery to be linked to CCG’s before discharge.
- CCG’s and Family health teams to identify clients due for post-delivery follow up at 6 days.
- To link every cross boarder client to the nearest clinic in order to continue with post natal clinic.
Strategic Objective 2: Prevention of new HIV, STIs and TB Infections
HCT & TB Screening

Number of HIV tests conducted

- Q4 2013/2014 (Jan...): 38,501
- Target Q1 2014/2015: 29,161
- Q1 2014/2015 (April...): 32,440
- Target Q2 2014/2015: 29,161
- Q2 2014/2015 (Jul...): 35,417
- Target Q3: 29,161
- Q3 2014/2015 (Oct...): 32,400

Number of HIV tests conducted
Strategic Objective 2: Prevention of new HIV, STIs and TB Infections
HCT & TB Screening

Number of HIV positive cases

<table>
<thead>
<tr>

<td>2744</td>
</tr>
</tbody>
</table>

Legend:
- Number of HIV positive cases
HIV testing targets met throughout the quarters.

A slight decline in HIV positive rate noted with the last quarter in comparison with the previous quarter.
RECOMMENDATIONS

* Ongoing community outreach testing campaigns to be maintained.
* Prevention strategies on new infections to be strengthened.
* Education on positive living to be advocated through Positive Women Network.
Strategic Objective 2: Prevention of new HIV, STIs and TB Infections
HCT & TB Screening

Number of TB cases

- Q4 2013/2014 (Jan - Mar 2014): 504
- Q1 2014/2015 (April - June 2014): 481
- Q2 2014/15 (Jul-Sep 2014): 325
Discussion

* No of TB new cases increased from 325 to 827

* The sub-district that has got the highest number is Greater Kokstad at 291 followed by UMzimkhulu at 217, the lowest being KwaSani at 13.
Ongoing Cross boundary meetings to monitor the situation.

Community education on TB infection especially on high risk groups.

Blitz Campaigns will be conducted to mobilize community awareness at informal settlements.
Strategic Objective 2: Prevention of new HIV, STIs and TB Infections

Condoms Distribution

Number of male condom distributed

Green bars represent the number of male condoms distributed.
Strategic Objective 2: Prevention of new HIV, STIs and TB Infections

Number of female condoms distributed

- Q4 2013/2014 (Jan-...): 53,992
- Q1 2014/2015: 40,001
- Q2 2014/2015 (April-...): 78,016
- Q3 2014/2015 (Jul-Sep...): 81,194
- Q3 2014/2015 (Oct-Dec...): 47,848

Number of female condoms distributed
## Strategic Objective 2: Prevention of new HIV, STIs and TB Infections

### Condoms Distribution

<table>
<thead>
<tr>
<th>Quarter</th>
<th>Number of secondary distribution sites</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q4 2013/2014 (Jan- Mar 2014)</td>
<td>500</td>

<td>Annual target 2014/15 (April 2014 – March 2015)</td>
<td>500</td>
</tr>
<tr>
<td>Q1 2014/2015 (April – June 2014)</td>
<td>500</td>
</tr>
<tr>
<td>Q2 2014/2015 (Jul – Sep 2014)</td>
<td>500</td>
</tr>
<tr>
<td>Q3 2014/2015 (Oct – Dec 2014)</td>
<td>500</td>
</tr>
</tbody>
</table>
A decline on male condom distribution has been noted especially in Kokstad.

The district from last Q performance of 1.8 mil to 1.4 mil

To extend the distribution to other departments and design an improvement plan.

The district service providers managed to achieve their target but the public health facilities need to escalate their performance.
Strategic Objective 2: Prevention of new HIV, STIs and TB Infections
Male Medical Circumcision

Number of males aged 15-49 circumcised

<table>
<thead>
<tr>
<th>Date</th>
<th>Number of Males Circumcised</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q4 2013/2014 (Jan....)</td>
<td>782</td>
</tr>
<tr>
<td>Target Q1 2014/2015</td>
<td>3569</td>
</tr>
<tr>
<td>Q1 2014/2015 (April..)</td>
<td>855</td>
</tr>
<tr>
<td>Target Q2 2014/2015</td>
<td>3569</td>
</tr>
<tr>
<td>Q2 2014/2015 (Jul- Sep)</td>
<td>886</td>
</tr>
<tr>
<td>Target Q3 2014/2015</td>
<td>3569</td>
</tr>
<tr>
<td>Q3 2014/2015 (Oct-Dec)</td>
<td>327</td>
</tr>
</tbody>
</table>
• Male Medical circumcision performance dropped drastically in 3rd Q challenges of transport and mobilization being contributory factors.
• Mostly adult males do not turn up.
• Amakhosi and men’s sector has been engaged with no positive response.
• Refresher course for the doctors that was scheduled for the third quarter did not take place due to school examinations.
Recommendations

• To continue engage the adult males and monitor.
• Men's sector chairperson to schedule meetings with the Traditional leadership of different municipalities.
• Community dialogues to be conducted as a form of community mobilization.
• The district specialist (family physician) has been engaged to assist.
• Discussions from HAST (HIV/AIDS Sexually transmitted infections and Tuberculosis) quarterly meeting advised districts to engage the EMS to assist with transportation of boys.
Strategic Objective 2: Prevention of new HIV, STIs and TB Infections
Prevention of Exposure to transmission from occupational exposure, Sexual violence

Number of new sexual assault cases

<table>
<thead>
<tr>
<th>Quarter</th>
<th>Number of Cases</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q4 2013/2014</td>
<td>62</td>
</tr>
<tr>
<td>Q1 2014/2015</td>
<td>55</td>
</tr>
<tr>
<td>Q2 2014/15</td>
<td>57</td>
</tr>
<tr>
<td>Q3 2014/15</td>
<td>89</td>
</tr>
</tbody>
</table>

Strategic Objective 2: Prevention of new HIV, STIs and TB Infections
Prevention of Exposure to transmission from occupational exposure, Sexual violence

Children under 12 sexually assaulted rate

- Q4 2013/2014 (Jan - Mar 2014): 29%
- Q1 2014/2015 (April-June 2014): 23.60%
- Q2 2014/15 (Jul-Sep 2014): 19.30%
- Q3 2014/15 (Oct-Dec 2014): 23.60%

Children under 12 sexually assaulted rate
• Increase number of sexual assault cases reported probably due to communities reporting following community awareness campaigns.
• All clients with sexual assaults are given prophylaxis except those with known HIV status.
• To continue to monitor and provide prophylaxis to all those qualifying for it.
• Psychosocial support to be given to the victims.
Strategic Objective 3: Sustain Health & Wellness
Comprehensive ART Services

Number of patients receiving ART (Adults & Children)

- Q4 2013/2014 (Jan-...): 36,543
- Target Q1 2014/2015 (April-...): 37,619
- Target Q2 2014/2015 (April-...): 38,307
- Q2 2014/2015 (Jul-...): 40,799
- Target Q3 2014/2015 (Oct-...): 40,799
- Q3 2014/2015 (Oct-...): 39,423

Number of patients receiving ART (Adult & Childrens)
Number of ART patients de-registered due to loss of follow up

Strategic Objective 3: Sustain Health & Wellness
Comprehensive ART Services
Number of ART patients de-registered due to death

Target Q4 2013/2014 (Jan…): 120
Target Q1 2014/2015 (April…): 132
Target Q2 2014/2015 (Jul…): 112
Target Q3 2014/2015 (Oct…): 132

Number of ART patients de-registered due to death
• Clients remaining on ART (Anti Retro Viral Treatment) maintained a steady increase despite of festive season with exception of Ubuhlebezwe.
• HIV/TB co-infected patient initiated on (CPT) Cotrimoxazole Prophylactic Treatment rate is gradually increasing with an exception of Ubuhlebezwe Sub-D-strict which has decreased from 90% to 56%.
• Ubuhlebezwe Sub- district has been tasked to have remedial actions.
Strategic Objective 5: Coordination, Monitoring & Evaluation

Number of LACs submitting reports to DAC

<table>
<thead>
<tr>
<th>Target</th>
<th>Number of LACs submitting reports to DAC</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q4 2013/2014 (Jan)</td>
<td>5</td>
</tr>
<tr>
<td>Q1 2014/2015 (April)</td>
<td>5</td>
</tr>
<tr>
<td>Target Q2</td>
<td>5</td>
</tr>
<tr>
<td>Q2 2014/2015 (Jul)</td>
<td>5</td>
</tr>
<tr>
<td>Target Q3</td>
<td>5</td>
</tr>
<tr>
<td>Q3 2014/2015 (Oct)</td>
<td>4</td>
</tr>
</tbody>
</table>
Number of WACs submitting reports to LAC

Strategic Objective 5: Coordination, Monitoring & Evaluation
Coordination, Monitoring & Evaluation
Data quality from LAC’s is poor due to lack of data management skills.

Functionality of WACs and LAC’s remains a challenge.

Quality of LAC’s reports still poor with gaps.

Recommendations:

Revisit and re-launch all structures of LAC’s to revive and strengthen the WACs.

M&E trainings to be coordinated to address the quality of reports.
THANK YOU

ZERO new HIV and TB infections
ZERO new infections due to vertical transmission
ZERO preventable HIV and TB deaths
ZERO HIV and TB discrimination
