An Effective And Efficient Service Delivery***

# **UGU DISTRICT MUNICIPALITY**

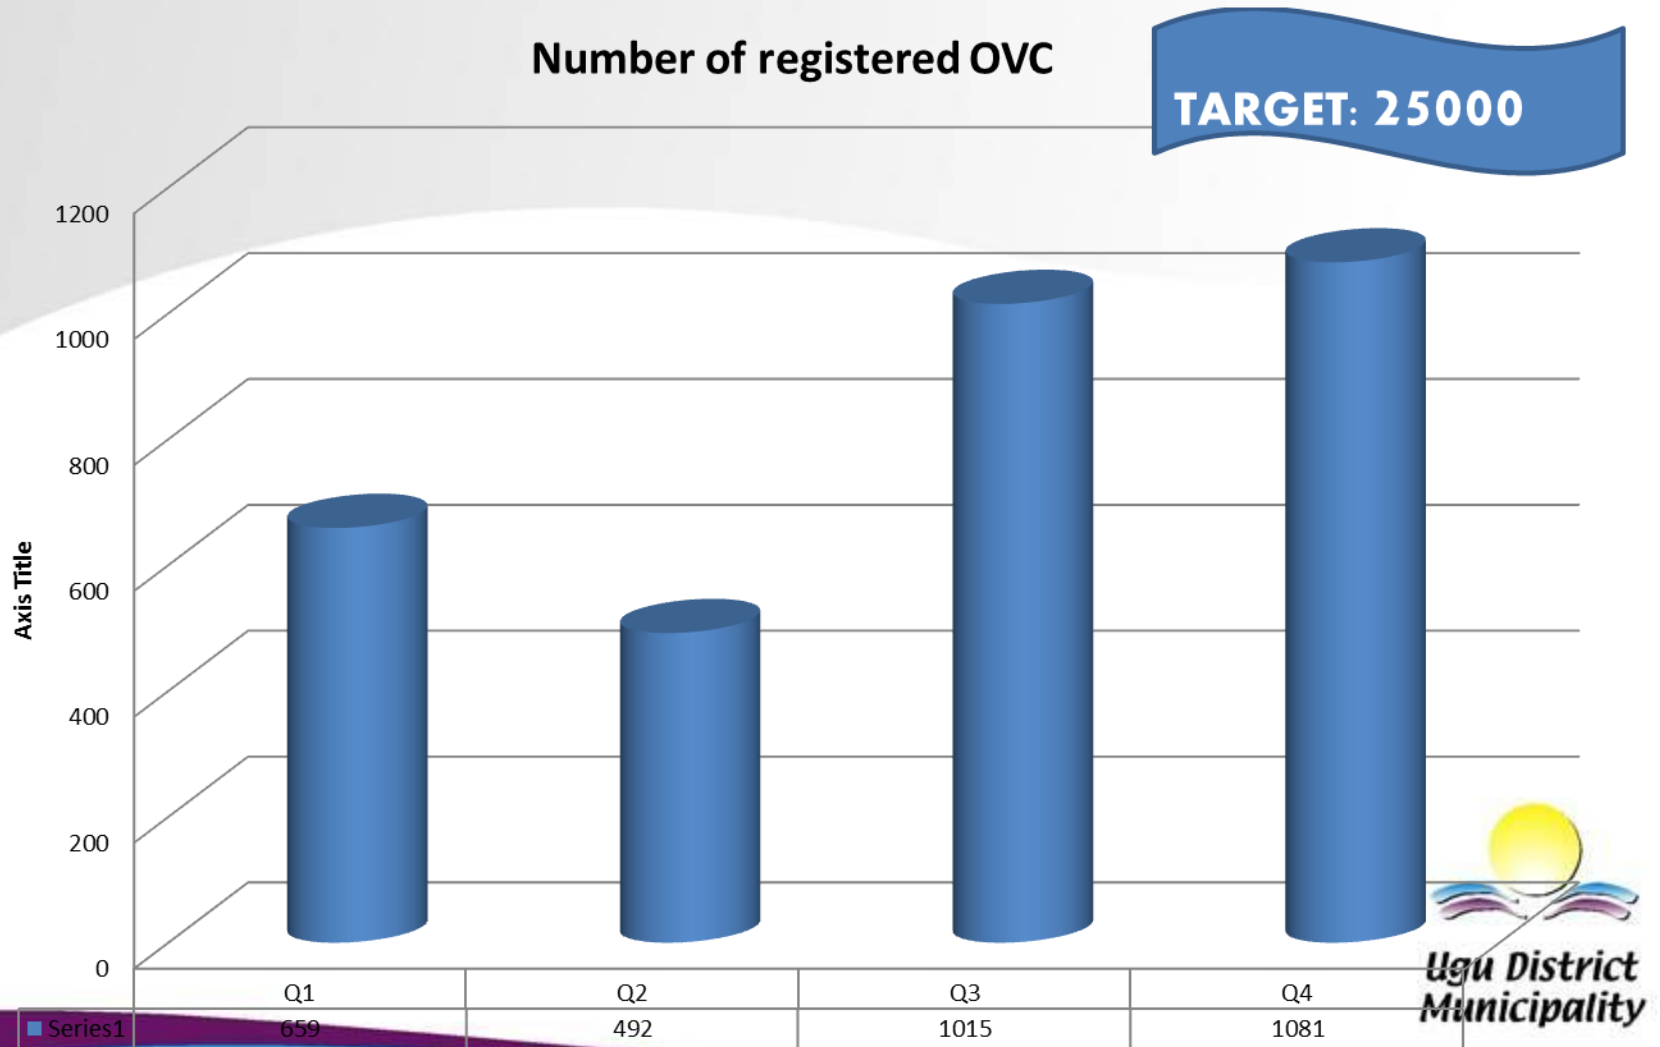

## **PRESENTATION TO THE PROVINCIAL COUNCIL ON AIDS**

**PRESENTED BY  
CLLR NH GUMEDE  
MAYOR: UGU DISTRICT MUNICIPALITY**

**05 August 2015**

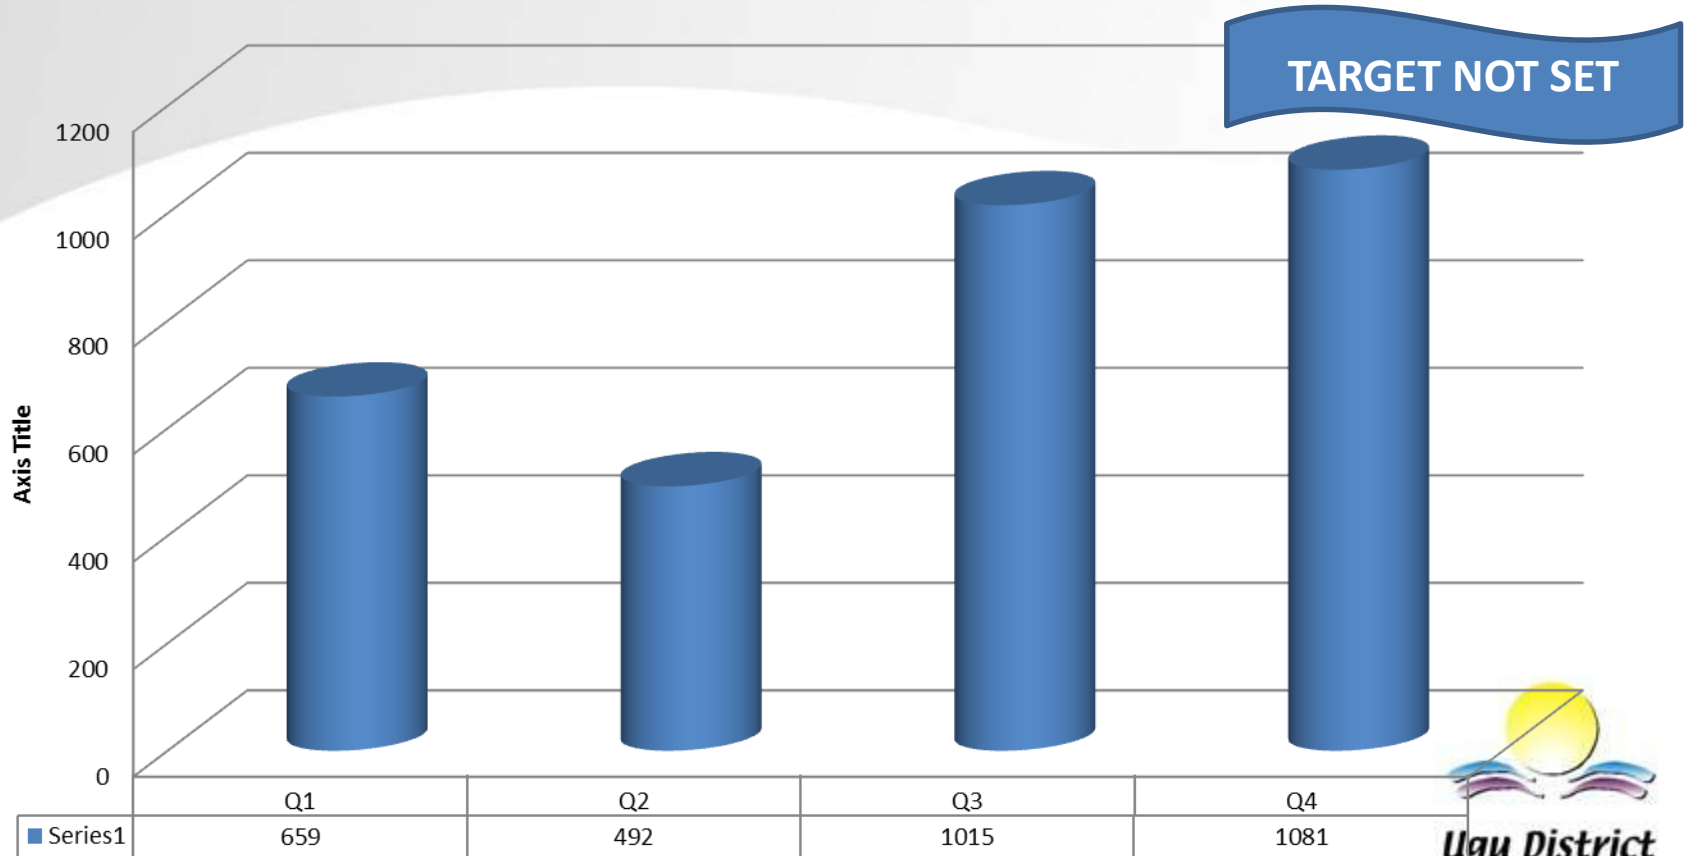

# ORPHANS AND VULNERABLE CHILDREN

# ORPHANS AND VULNERABLE CHILDREN

Number of registered OVC receiving care and support

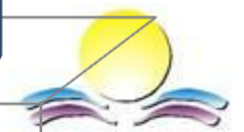

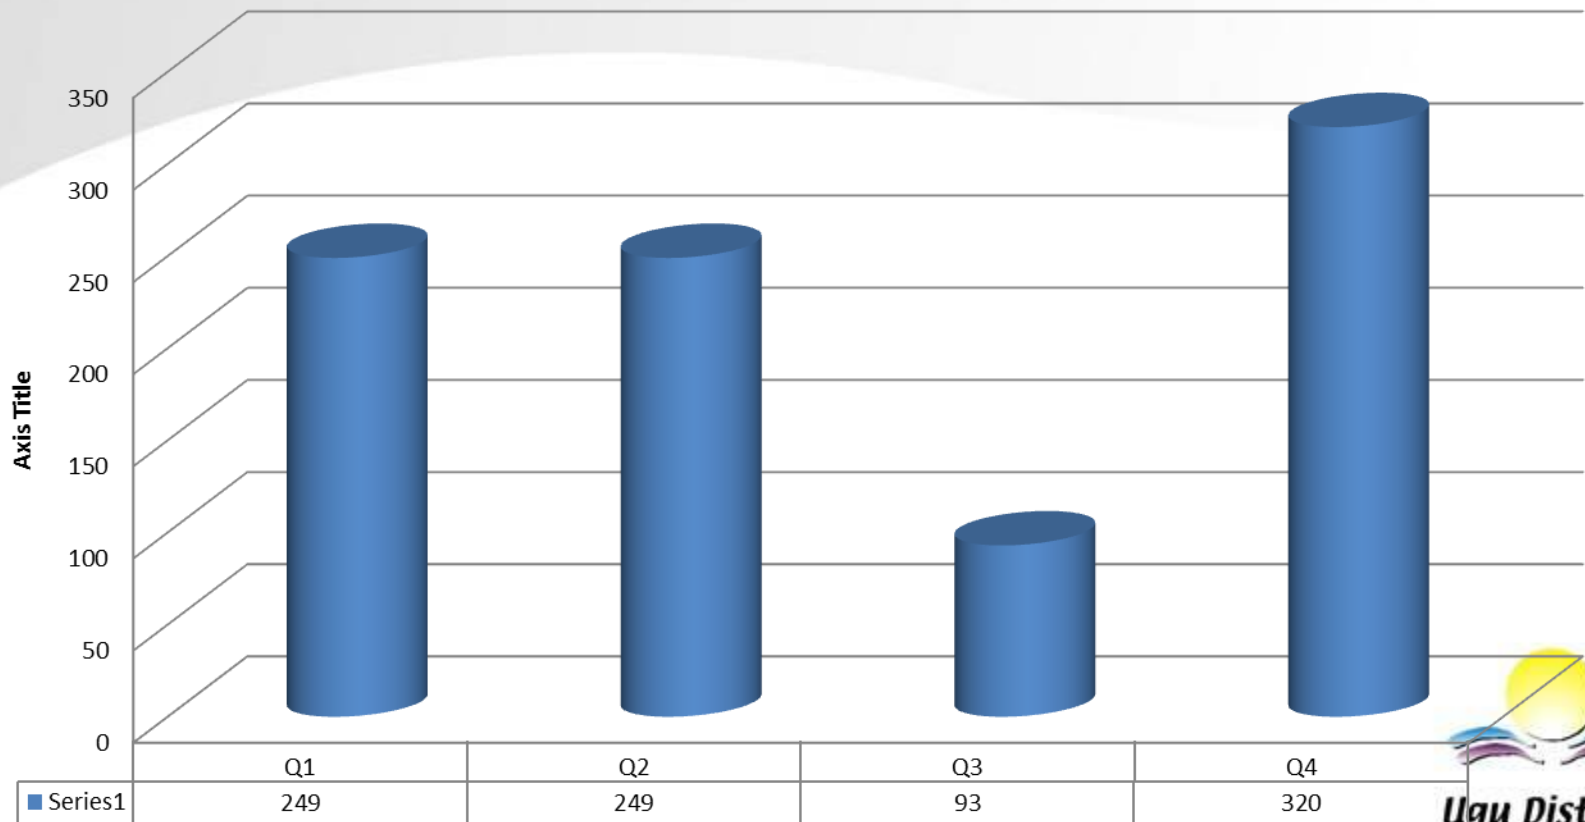

# COMMENTS

- The high increase in the number of children enrolled in early childhood facilities is due to the fact that DSD has started to collect data from all ECD facilities even if not funded by them.
- The Department has under taken to continue to ensure that all the non funded or registered organisation working with OVCs report in a regular manner.
- The increase noted in the number OVC of school going age that are not in school is due to migration of new families into the District.
- DSD is currently facilitating the process of enrolment of these new OVCs with DOE.
- DSD is also currently engaging in the process of fast tracking the placement of OVCs in alternative care hence the increase in the performance against this indicator during this reporting period

# LIFE SKILLS

Number of learners pregnant

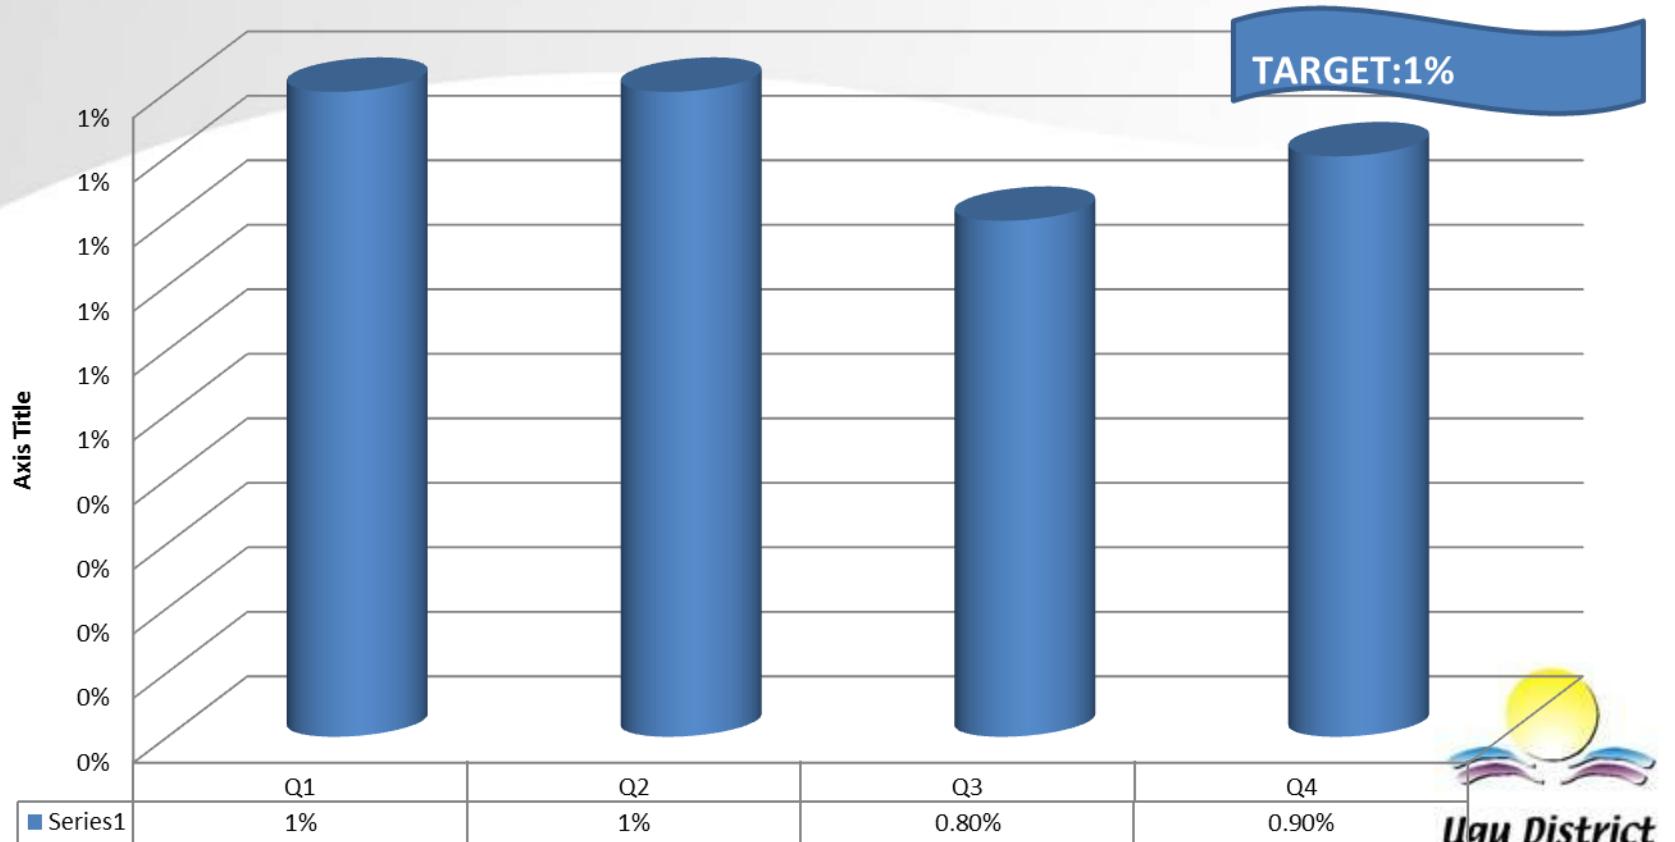

**Ugu District  
Municipality**

# COMMENTS

- Ugu has a teenage pregnancy problem (3rd highest in the province). This is a reflection of poor socio economic status, poor prospects, failing school and poor use of contraception
- Dual protection launch was held on 6 March at Gamalakhe FET College

# PMTCT

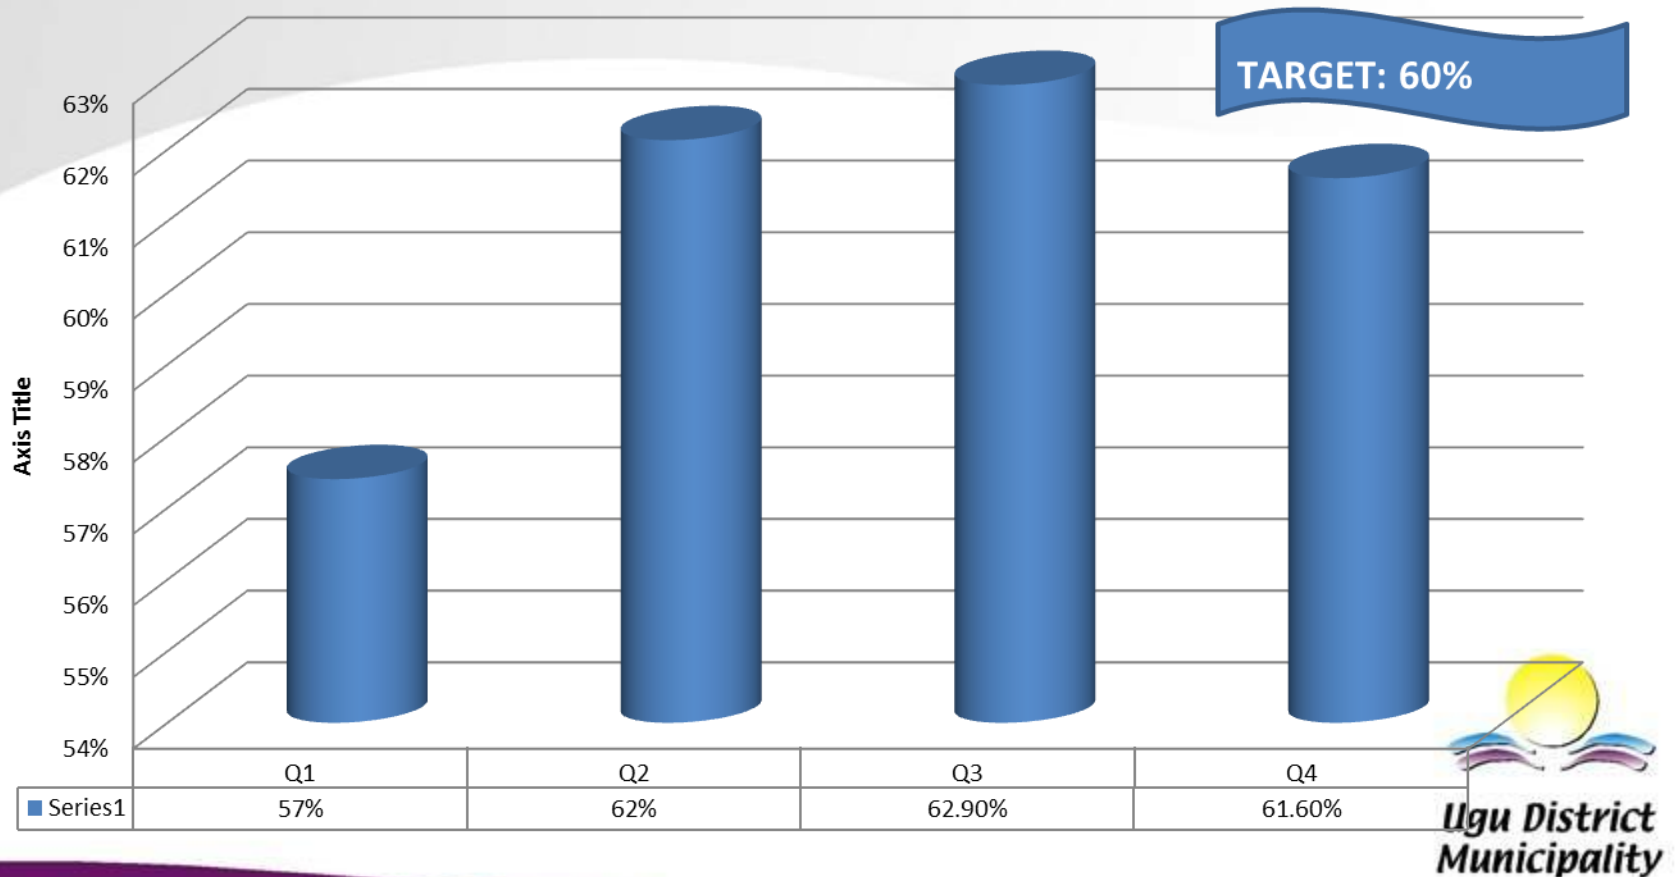

Baby antibody Hiv test positive at around 18 weeks rate

# PMTCT

## ANC booking before 20 weeks rate

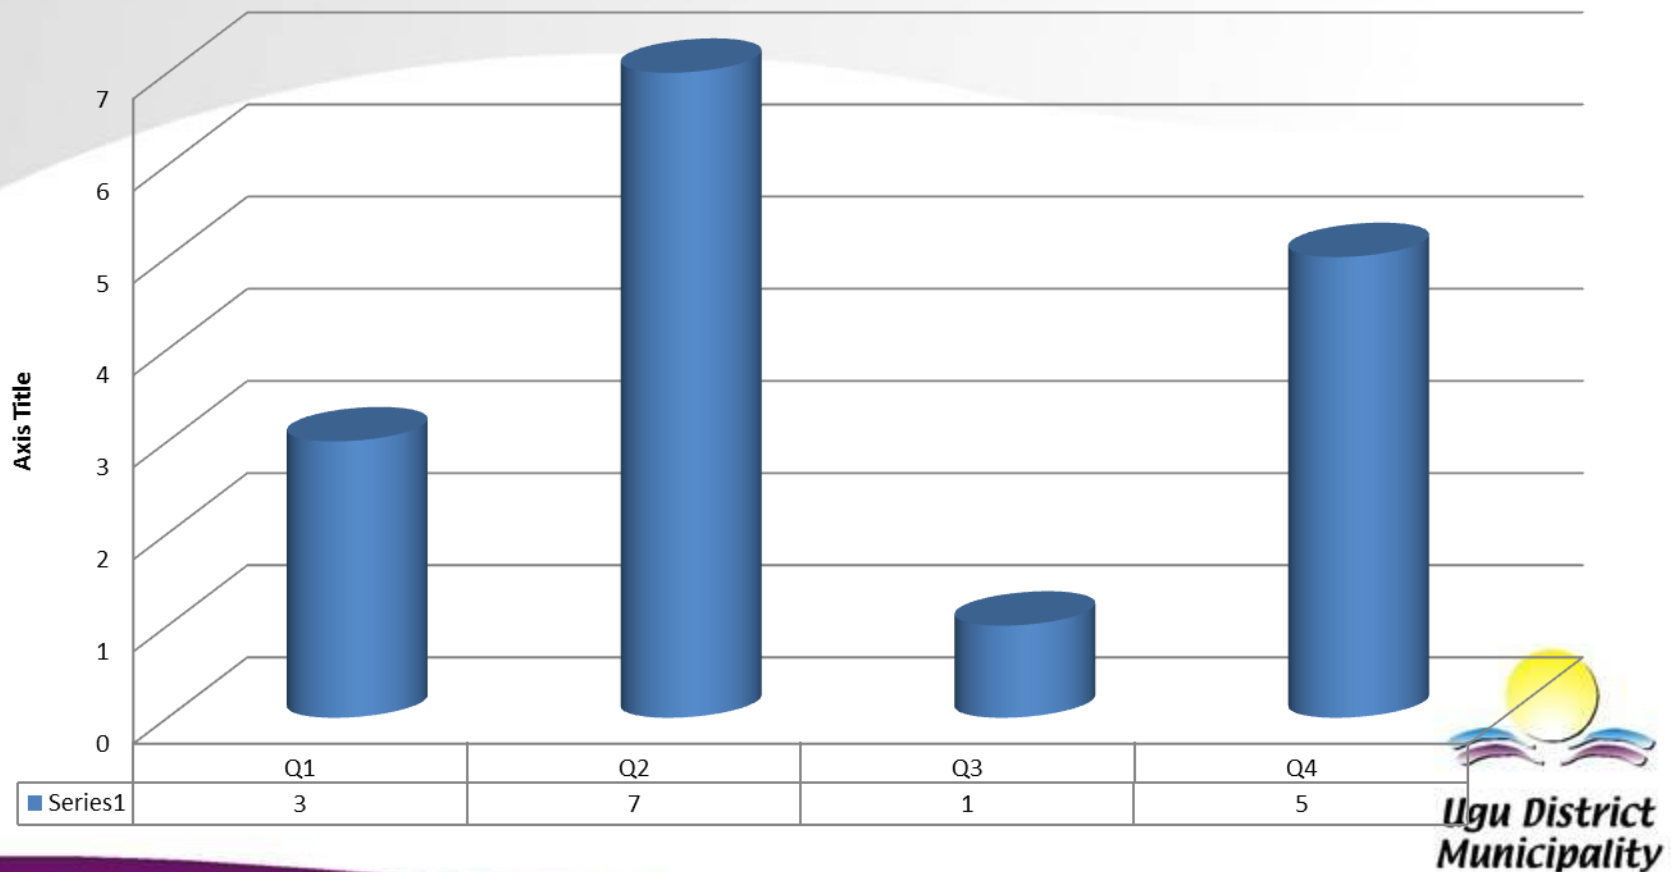

# COMMENTS

- Strategies are in place to advise the community that first ANC will be provided every day. A form has been created in conjunction with 20000 plus to establish how many clients were done pregnancy testing and started ANC on the same day.
- ANC less than 20 weeks is discussed at wedge meetings and Operation managers are reporting on which patients were not started ANC on the same day.
- Patients advised to keep cards at clinics for clients that are refusing to start first ANC. Project has been commenced where a pregnancy test is done for all women of child bearing age and then they are offered ANC at the same day
- Challenges in linking cross border mothers to the CCGs from their areas

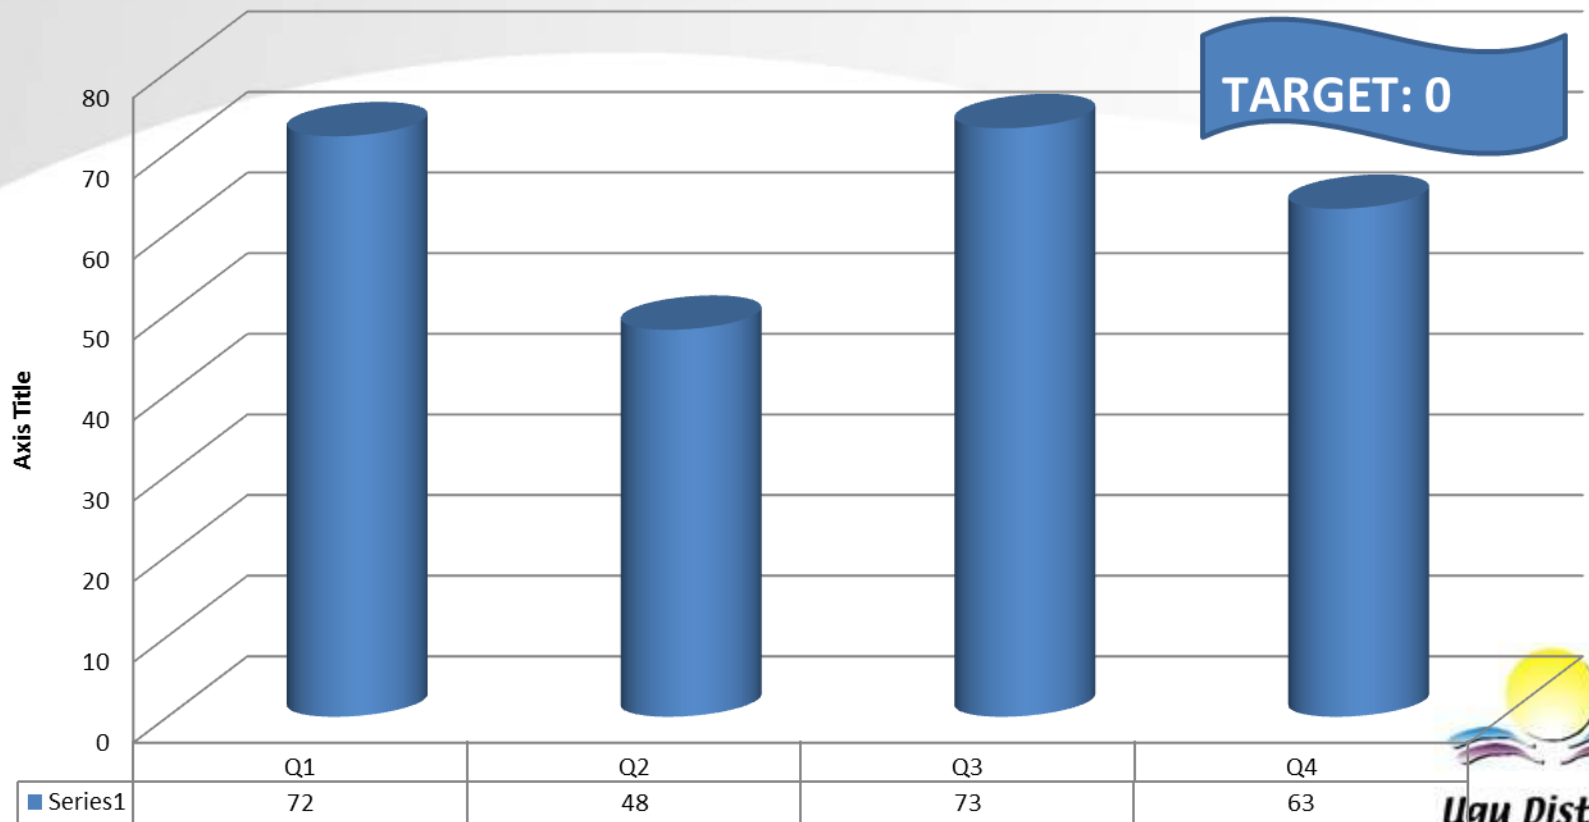

# MATERNAL CHILD & WOMEN'S HEALTH

Number of maternal death in public health facilities

# MARTENAL CHILD & WOMEN'S HEALTH

Number of infant deaths at public health facilities

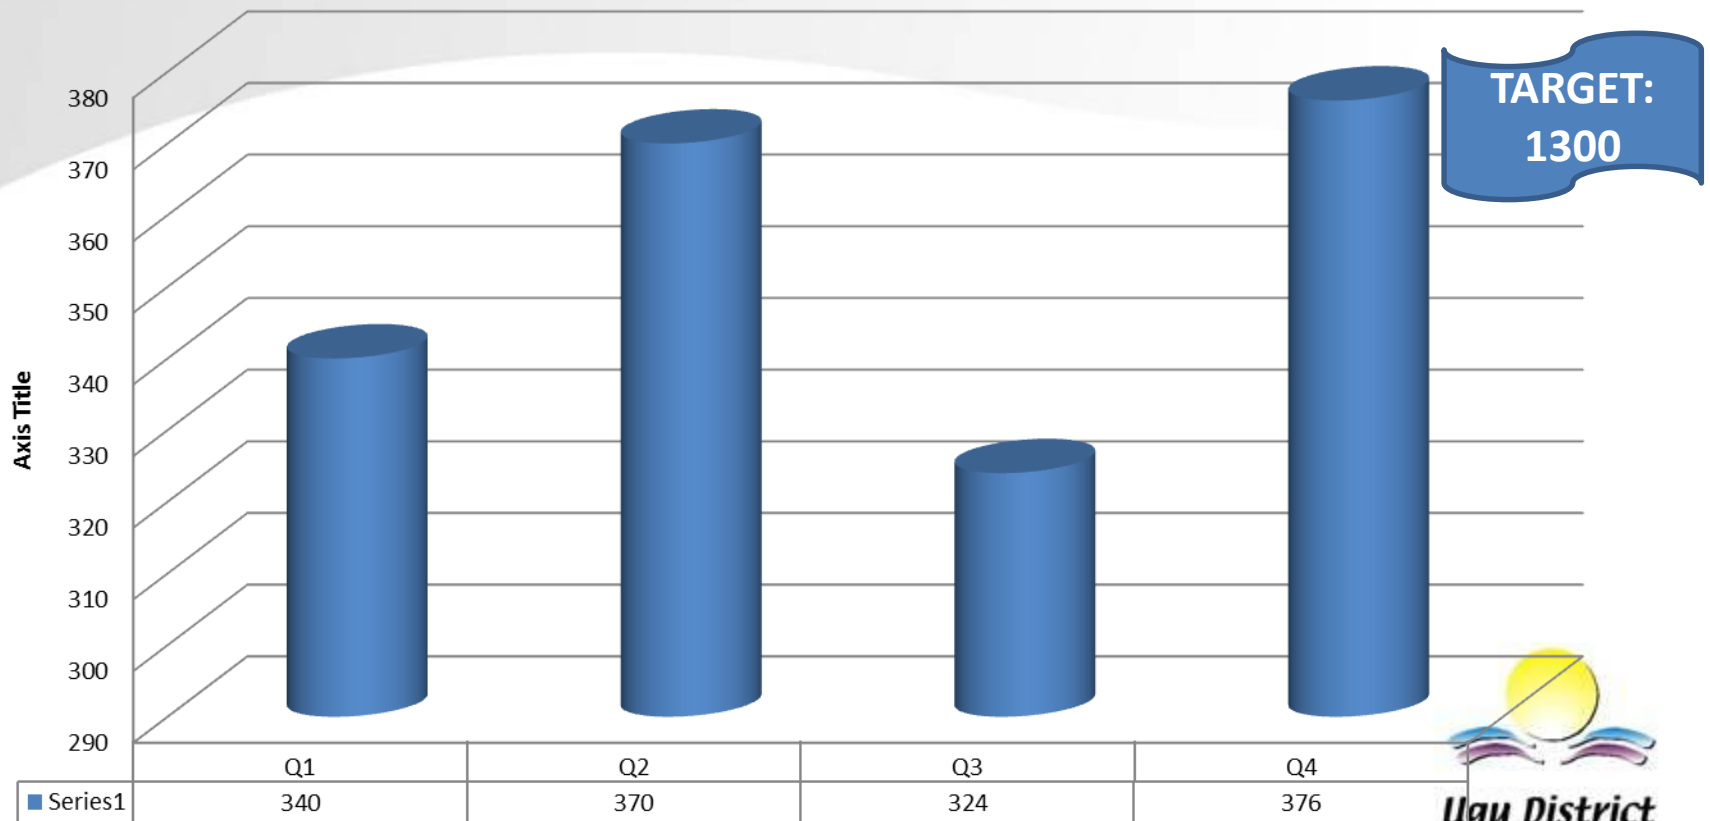

# COMMENTS ON MATERNAL AND INFANTS DEATHS

- Outreach District hospitals to provide surgical and anesthetic skills.
- District to appoint obstetrician clinical specialist
- Implementation of CARMMA at Primary Health Care especially sexual and reproductive health services to all women of child bearing age
- Discuss in OSS war rooms challenges of unbooked women especially teenagers
- Ensuring integration of family planning in all service areas

# MARTENAL CHILD & WOMEN'S HEALTH

Number of deliveries less than 18 years at public health facilities

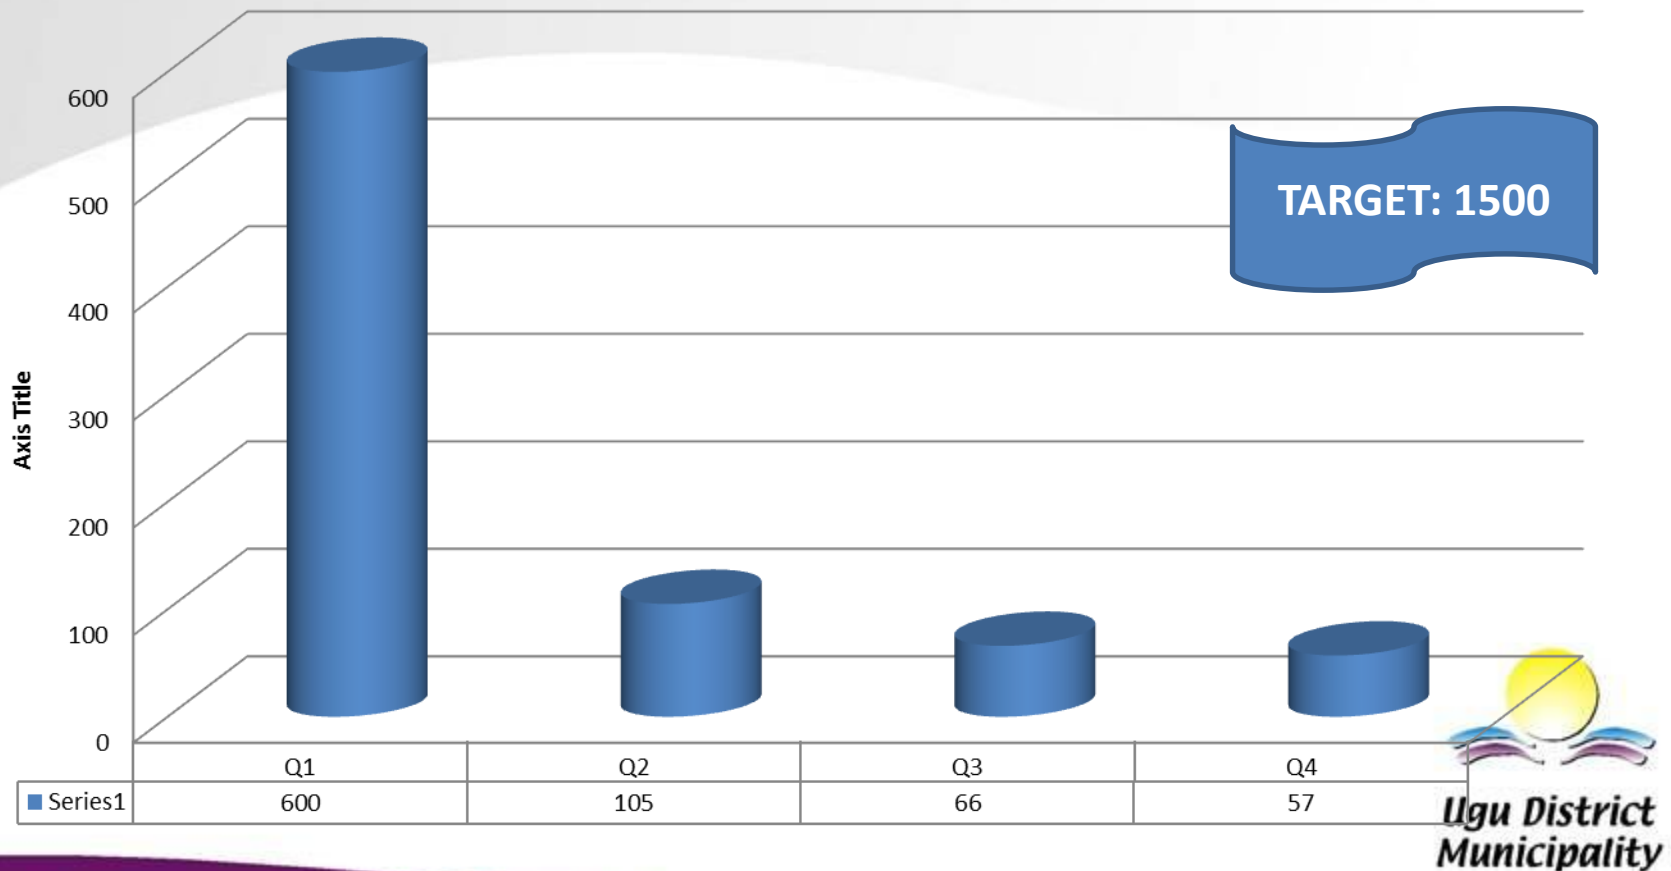

# COMMENTS ON DELIVERIES UNDER 18 YEARS

- Ugu has a teenage pregnancy problem (3rd highest in the province). This is a reflection of poor socio economic status, poor prospects, failing school and poor use of contraception
- Dual protection launch was held on 6 March at Gamalakhe FET College

# MARTENAL CHILD & WOMEN'S HEALTH

Number of termination pregnancies performed

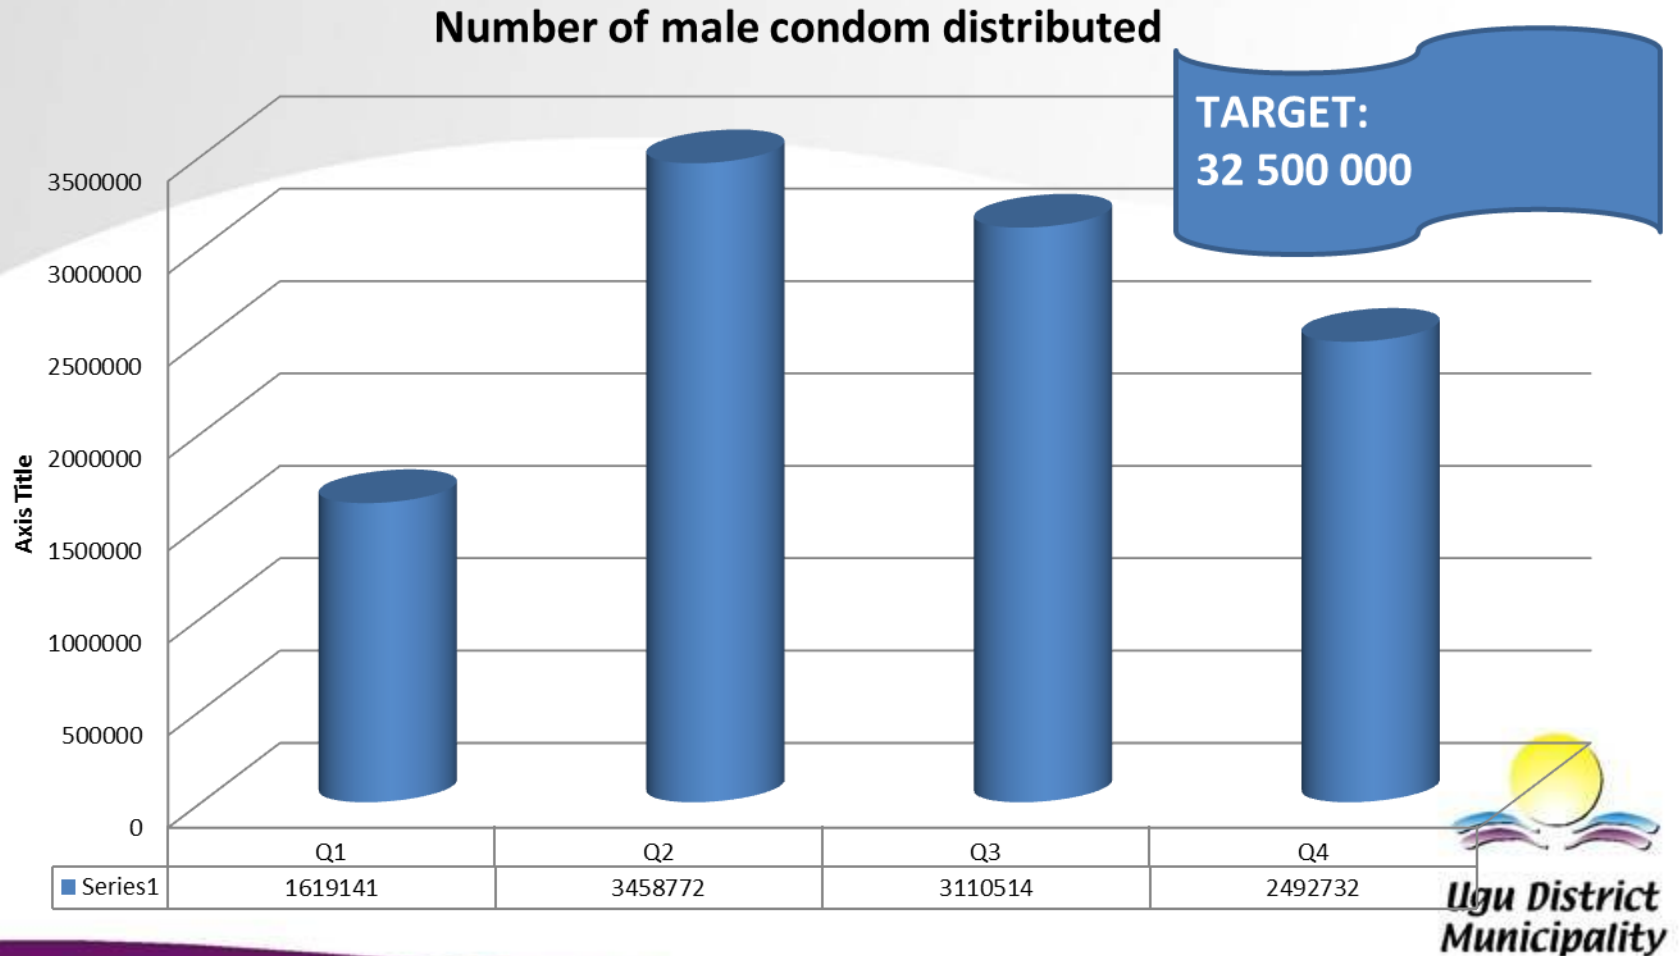

# COMMENTS

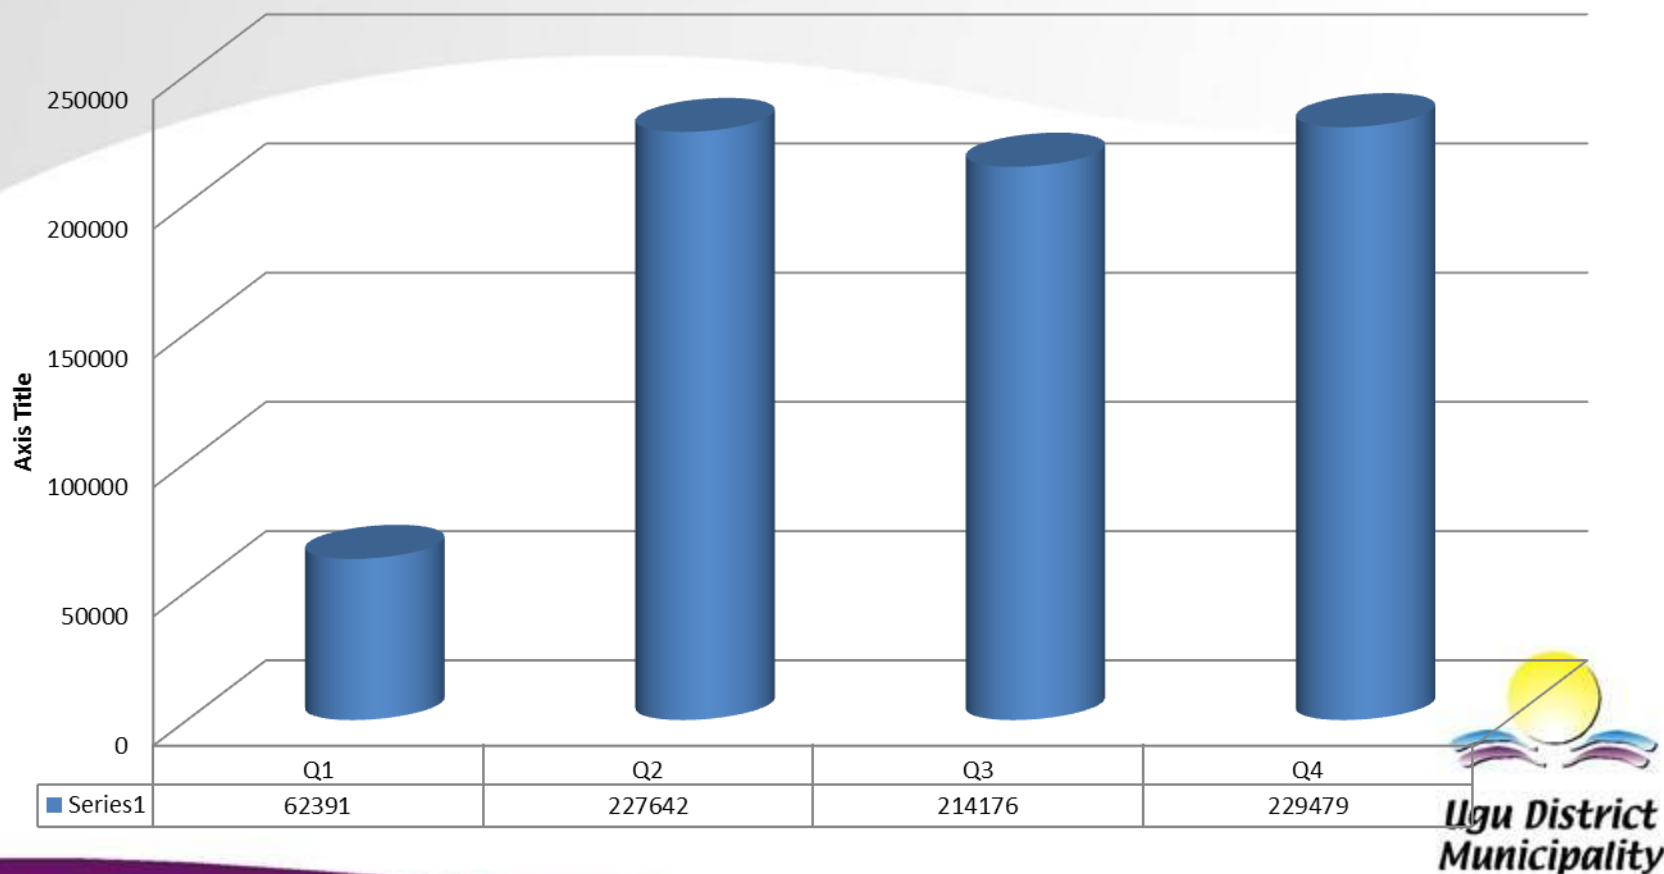

- All deaths were investigated and corrective measures implemented.
- Ugu has a teenage pregnancy problem (3rd highest in the province). This is a reflection of poor socio economic status, poor prospects, failing school and poor use of contraception
- Dual protection launch was held on 6 March at Gamalakhe FET College

# CONDOM DISTRIBUTION

# CONDOM DISTRIBUTION

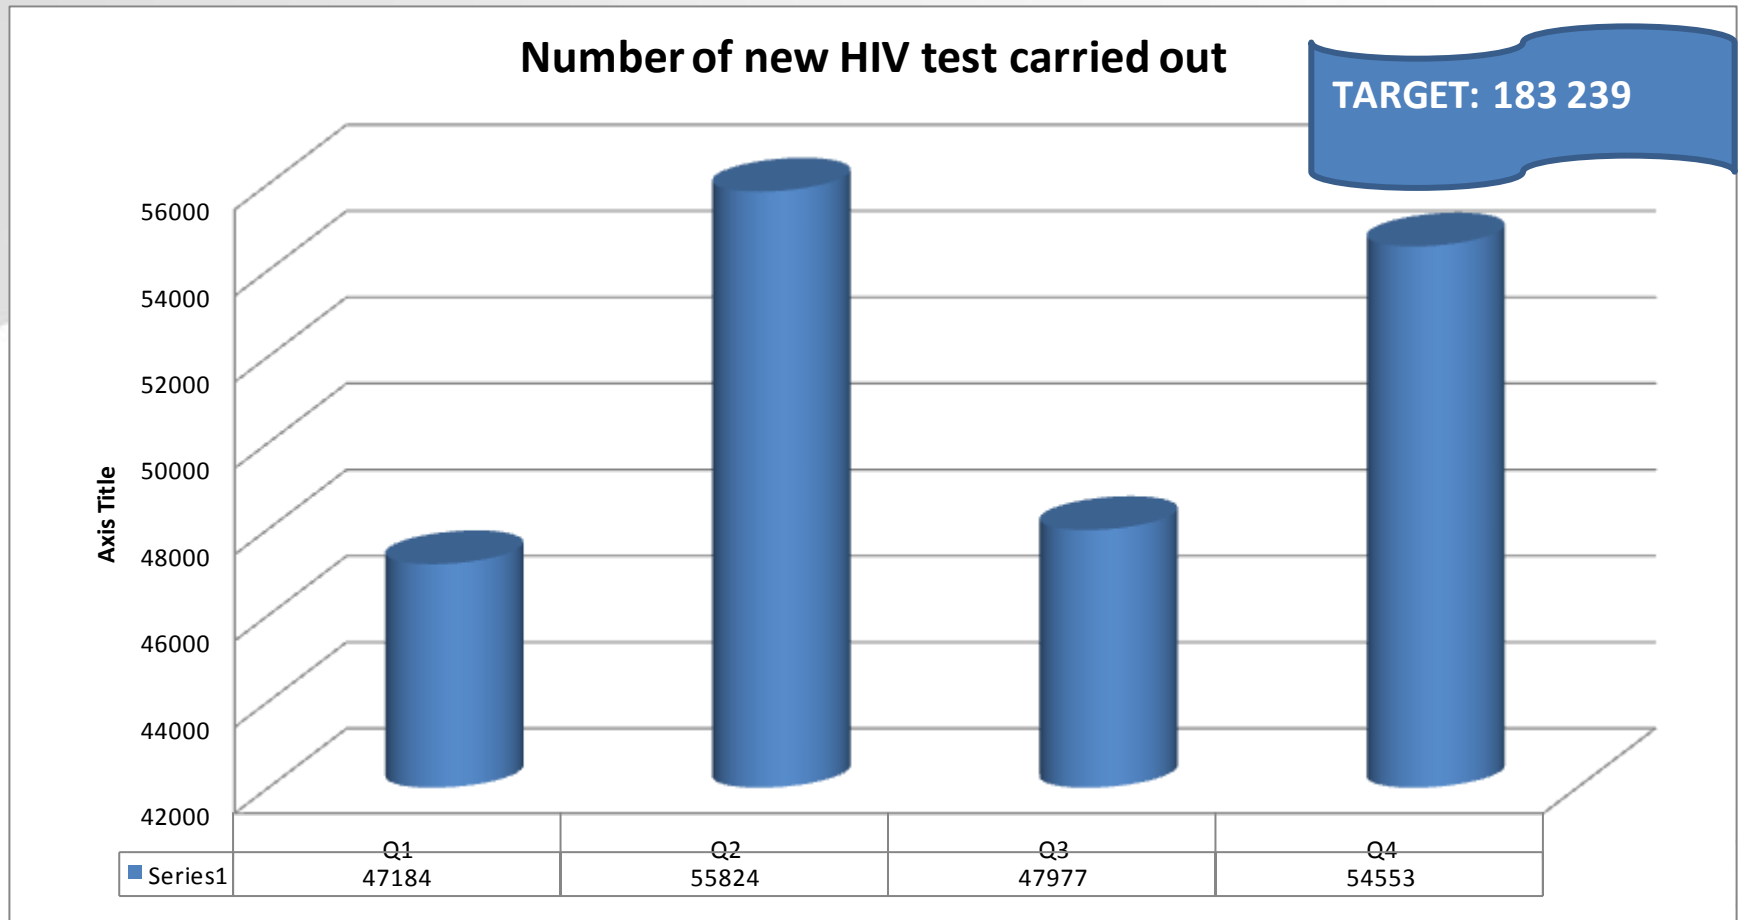

Number of female condom distributed

# COMMENTS ON CONDOM DISTRIBUTION

- Service providers have been contracted in all local municipalities
- Targets have been shared with all local municipalities
- We have launched dual protection in taxi ranks

# HIV TESTING & COUNSELLING

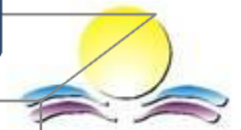

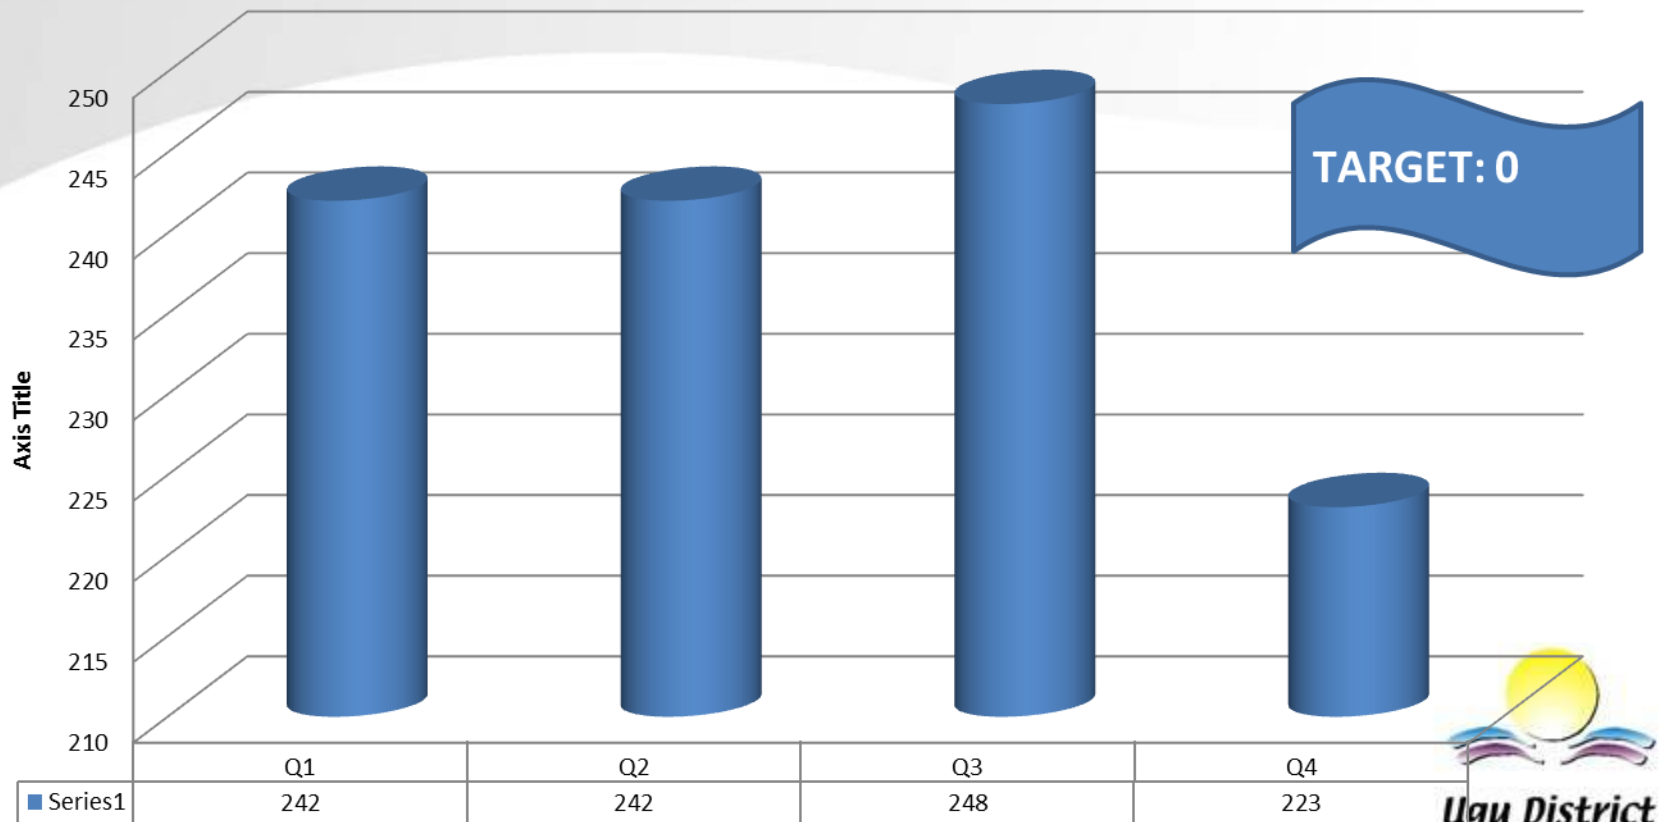

**Municipality**

# HIV TESTING & COUNSELLING

- Outreach services from facilities have contributed to the district exceeding the target for HCT
- 90-90-90 strategies have been effectively accepted and implemented by supporting partners and local municipalities
- Outreach teams are covering the key population areas

# SEXUAL ASSAULTS

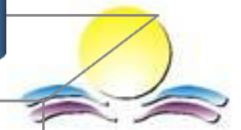

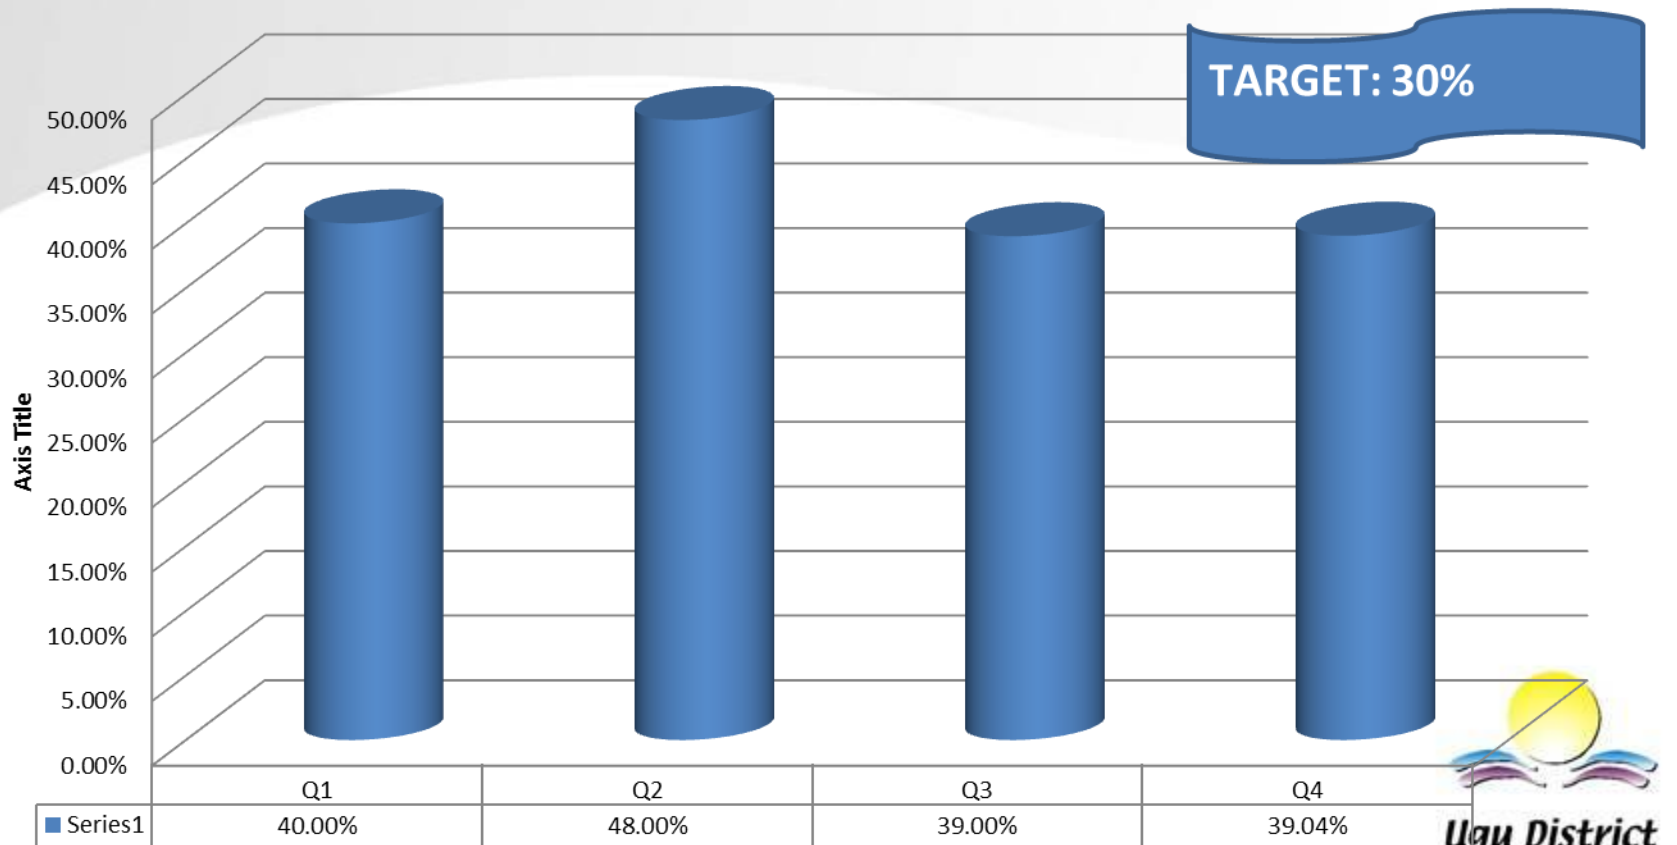

Number of new sexual assaults cases

**Ugu District  
Municipality**

# SEXUAL ASSAULTS

Number of new sexual assaults cases

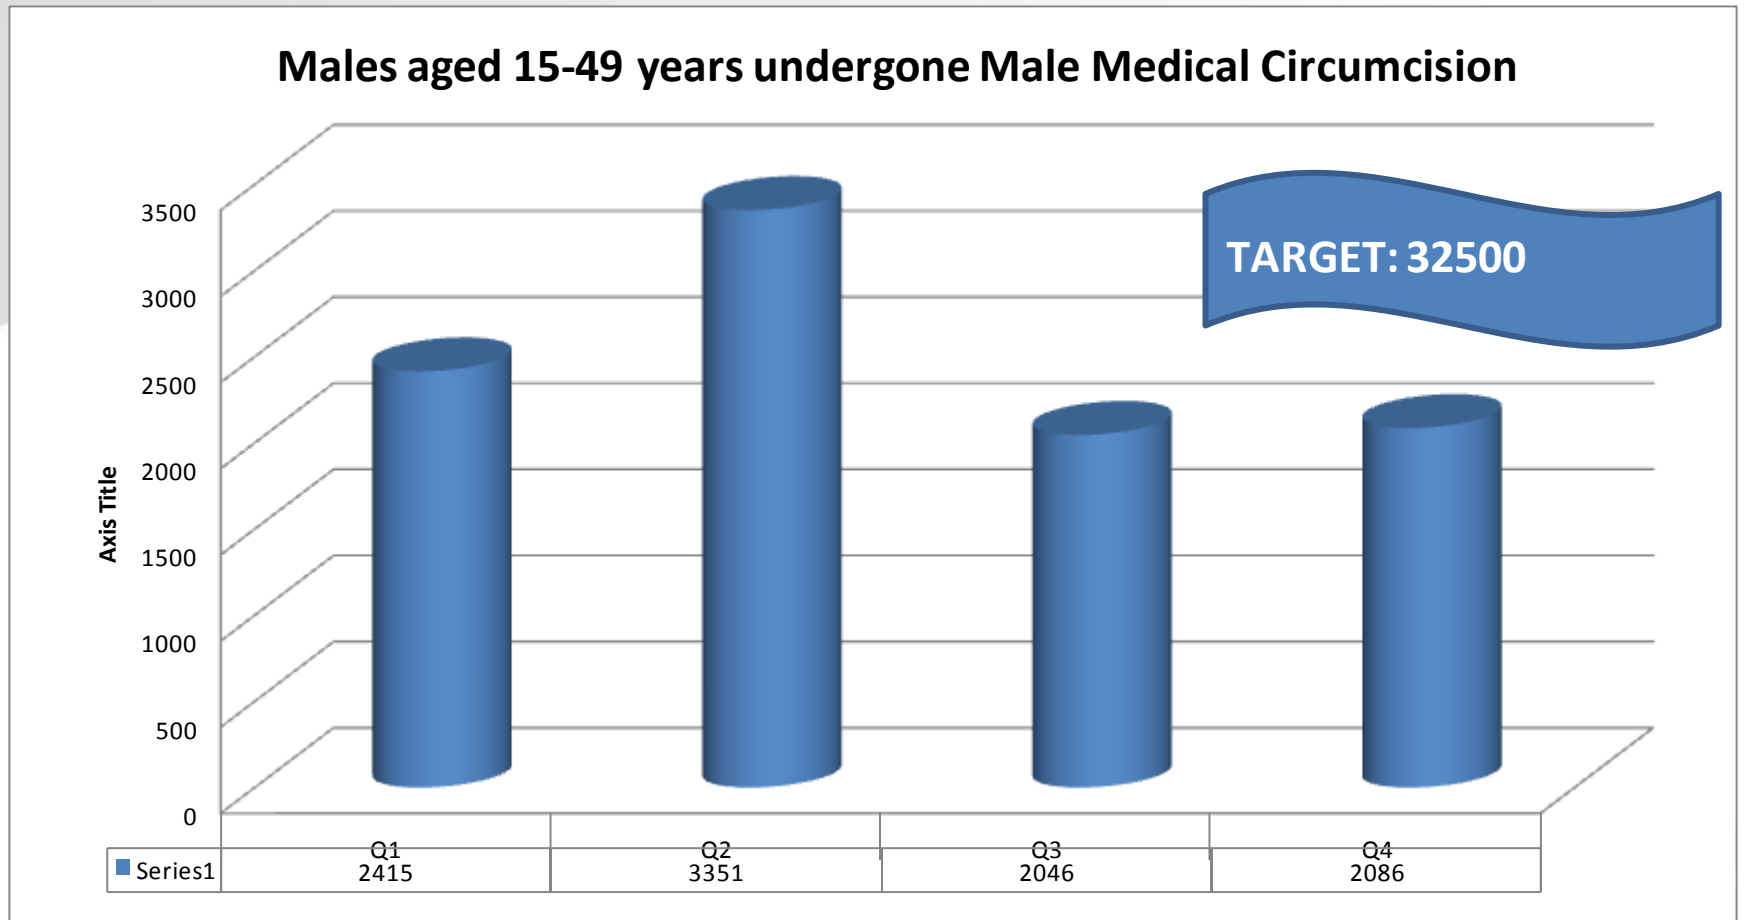

**Ugu District  
Municipality**

# COMMENTS ON SEXUAL ASSAULTS

- Awareness campaigns have been conducted in all local municipalities to fight trends of sexual assaults in communities
- Dialogues conducted with men in fighting sexual assaults

# MALE MEDICAL CIRCUMCISION

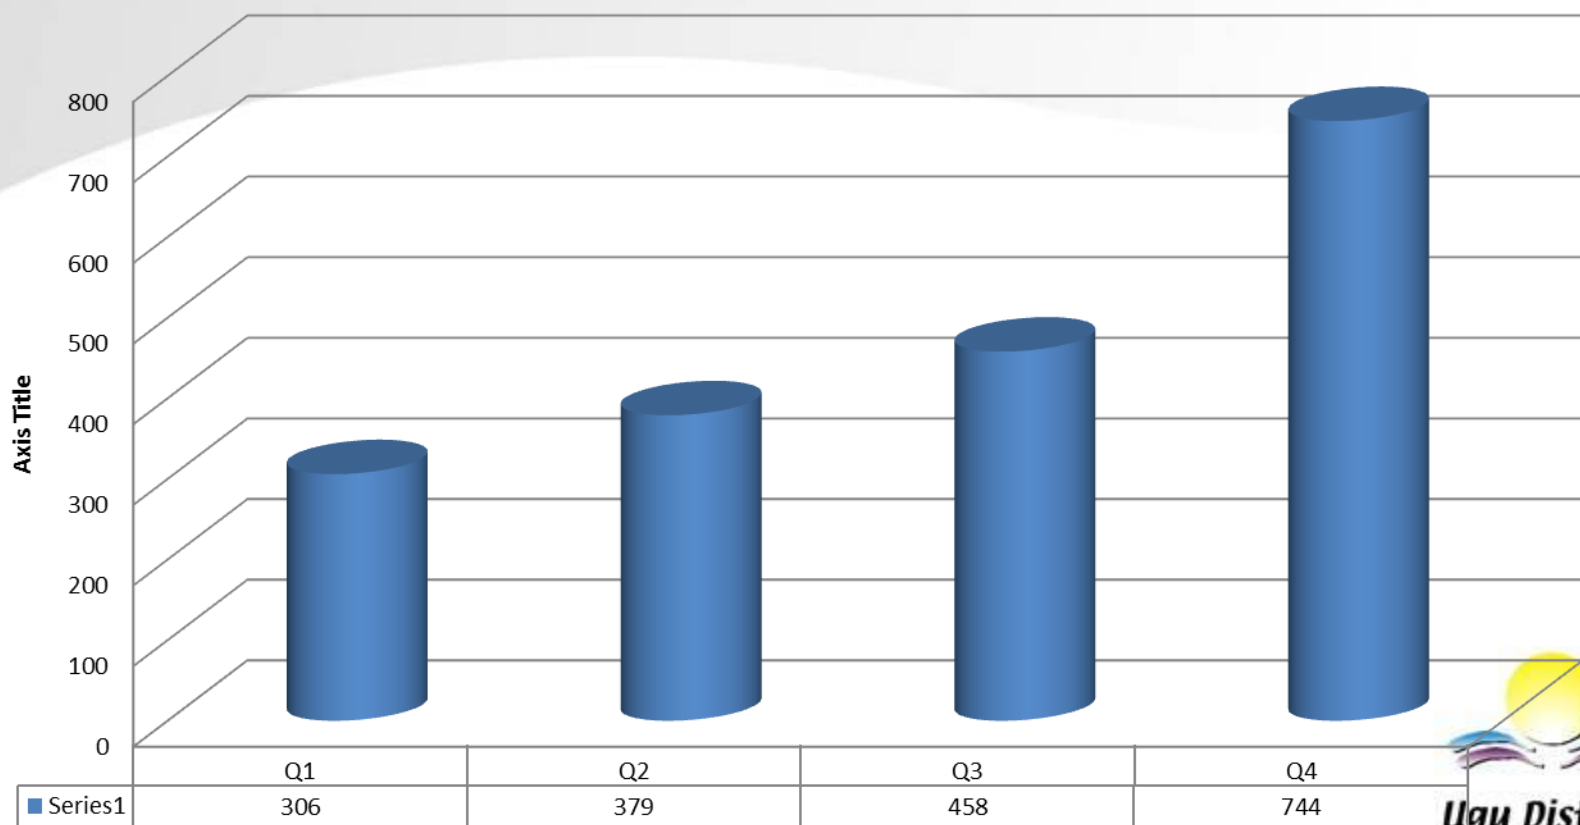

**Municipality**

# MALE MEDICAL CIRCUMCISION

- Awareness campaigns have been conducted to create understanding between initiation and medical male circumcision
- Door to door mobilisation by traditional coordinators have been conducted
- Mobile truck to conduct MMC in unreachable areas

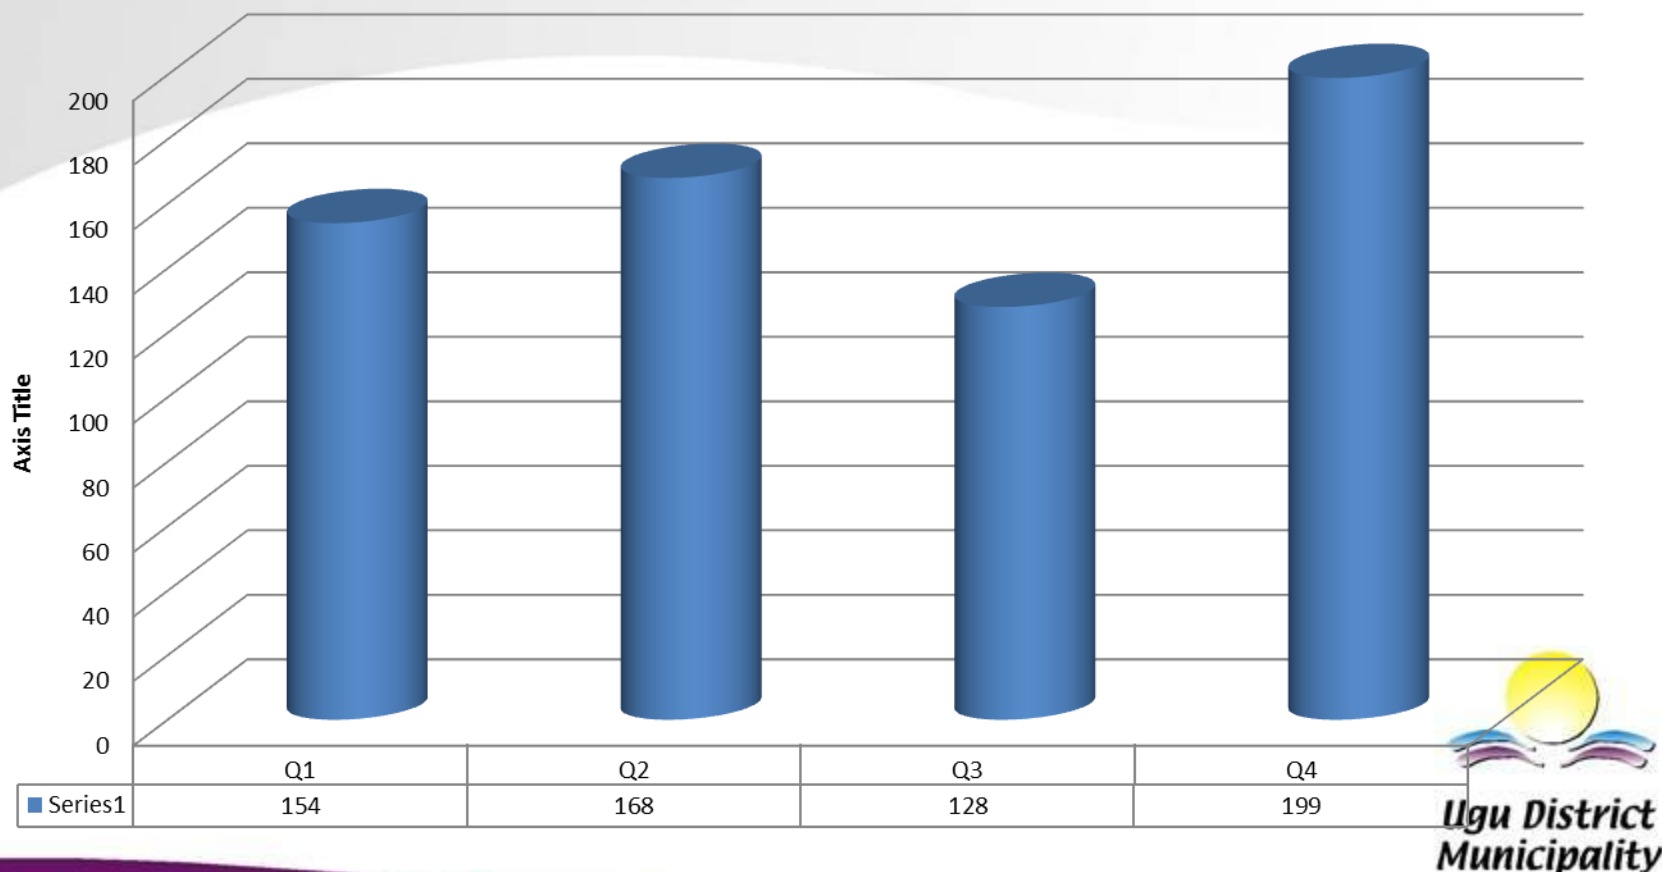

# ART LOST TO FOLLOW UP & DEATHS

Number of ART patients de-registered due to loss of follow up

# ART LOST TO FOLLOW UP & DEATHS

Number of ART patients de-registered due to death

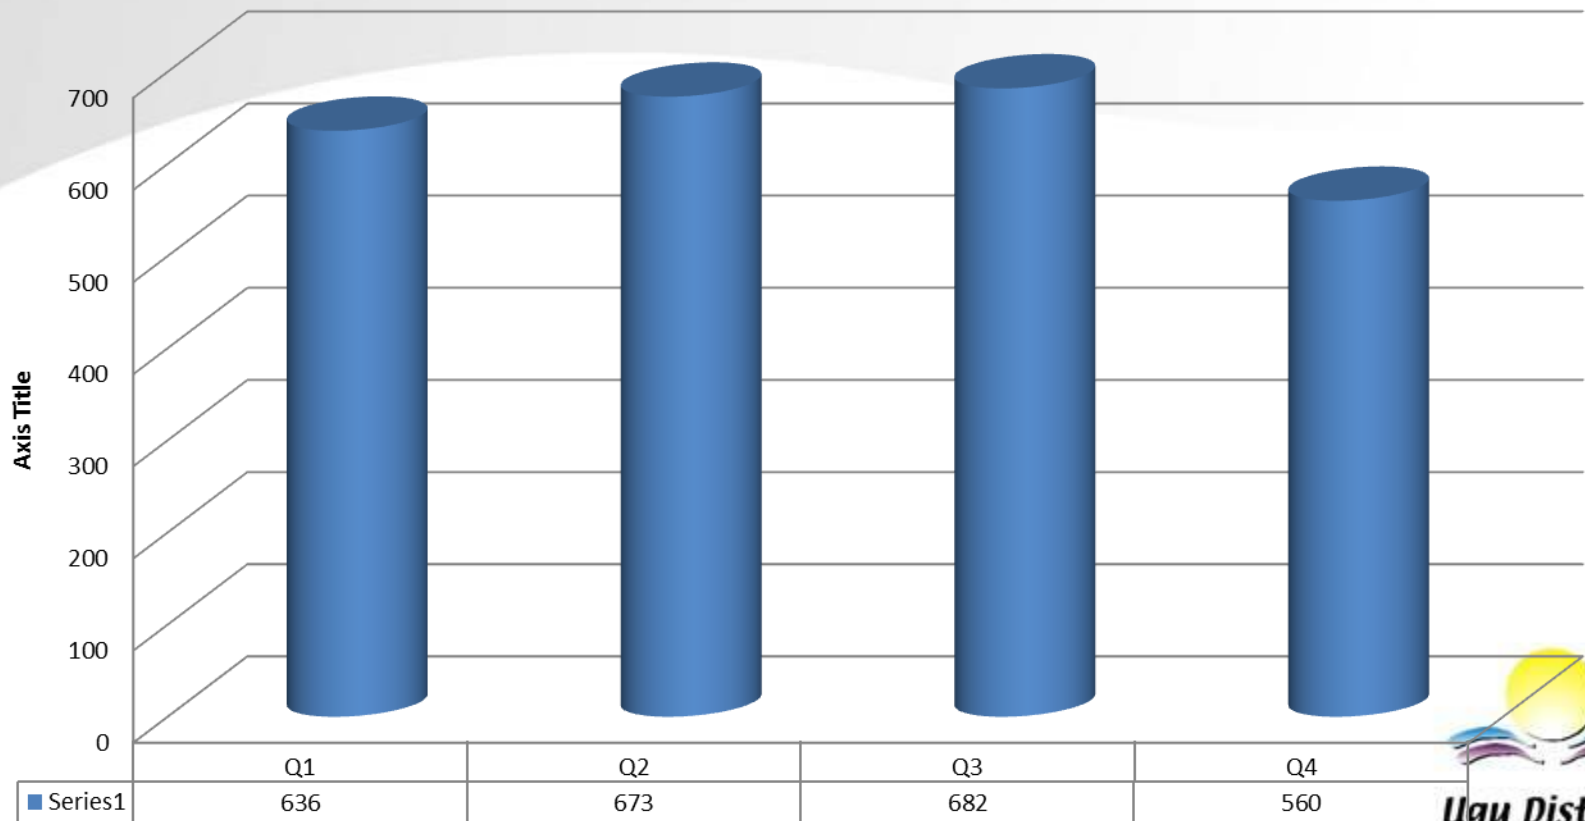

# COMMENTS

- The district has been conducting data clean up on Tier.net. It cleared up people who have passed away long time

# TB AND TB/HIV CO-INFECTION

Number of TB/HIV patients started on CPT

# COMMENTS

- The number of TB Patients with DOTS supporters and the Number of TB/HIV patients started on CPT continue to decline despite the Hospice's roving injecting team assisting with DOTS.
- The District needs to find other strategies to strengthen performance against these indicators
- There is also poor documentation-it interferes with correct data reporting

# MALNUTRITION

- The district has a challenge of cross boarder mothers that are severely malnourished
- Mix feeding that is using of formula mixing with breast
- Teenagers going back to school and stopping breast feeding
- Exposed babies with opportunistic infections
- There is a forum that has been established involving DSD, DOH and municipality where they meet quarterly where they discuss children that have been discharged backed to the community after being admitted with malnutrition
- Dieticians and nutritional advisors do community outreach for screening and education of mothers about feeding
