"Together We Deliver and Grow"
DISCUSSIONS

- Target over achieved this reporting quarter.
- Target achieved due to 49 new ECD Sites funded in this financial year and 900 children are benefiting from those ECD sites.

RECOMMENDATIONS

- To maintain the regular performance.
Strategic Objective 1: Addressing Social & Structural Drivers of HIV & AIDS, STI & TB Prevention Care & Impact

**DISCUSSIONS**
- There is a remarkable reduction in the number of pregnant Learners this reporting quarter.
- Local Municipalities still having a challenge to access information in this data element.

**RECOMMENDATIONS**
- Monitor and strengthen AYFS (adolescents and youth friendly services) and happy hours that accommodate Learners during their convenient time.
- Stakeholders to attend war-room meetings especially DOE for the WACs to get number of pregnant learners.
Strategic Objective 2: Prevention of new HIV, STIs and TB Infections PMTCT

DISCUSSIONS

- PCR positivity rate remains 1% contributing sub-districts UMzimkhulu and Dr. NDZ.
- This is attributed by mix-feeding and poor adherence to treatment by breast feeding mothers.

RECOMMENDATIONS

- Strengthen and monitor exclusive-breastfeeding
- Community dialogues to address the myths especially to breast feeding mothers.

Baby PCR tested positive around 10 weeks

Baby HIV antibody test positive at 18 months rate

DISCUSSIONS

- Infant deaths are still a challenge however the District is working hard to reduce such.
- Neonates 0-28 days contributing mainly due to inadequate facilities and lack of NICU (neonatal intensive care units) equipment.
- Number of maternal deaths =3, contributing facilities Rietvlei, EGUM & Christ the king.
- Causes: two defaulted treatment and one was an acute collapse from non obstetric causes.
- Insufficient beds for waiting mothers which contributes to maternal deaths.

RECOMMENDTIONS

- Neonates early referral to facilities with Neonatal intensive care units where conditions deterioration is noted.
- Conduct perinatal meetings to scrutinize the causes of maternal deaths.
**Strategic Objective 2: Prevention of new HIV, STIs and TB Infections HCT & TB Screening**

Discussions

- Number of Ward Aids Committees submitting reports to LAC is low compared to the number of wards in the District.
- In most LACs the performance has been affected by the new Term whereby new structures has to be established.

Recommendations

- Local municipalities to establish Ward Aids Committees to work hand in hand with ward task teams.
- Draw schedule of meetings and submit reports to Local Aids Council.
- Local Aids Councils to support and strengthen Ward Aids Committees.
THE STATUS OF DISTRICT IMPLEMENTATION PLAN DEVELOPMENT

• The District implementation plan development was scheduled for the 22\textsuperscript{nd} of August 2017.

• DAC Stakeholders and Local Municipality Secretariats participated in DIP development

• The DIP development drafted was facilitated by M & E Team from the Office of The Premier.

• District is awaiting for the finalized document from OTP M & E Team
