UPDATE ON DC 27

Presented by: Cllr TS Mkhombo
Date: 13 September 2017
Venue: Pietermaritzburg (Greys Hospital)
Strategic Objective 1. Addressing Social & Structural Drivers of HIV and AIDS, STI & Impact of Orphans and Vulnerable Children

- OVC registered in this reporting Quarter has increased to 1064 as compared to 13 reported on the last Q.
- The District has to work on targets for OVC so as to be able to monitor and evaluate the progress based on the targets.
- The DIP process is underway, the targets will be reflected.
Life Skills

- LACs still having a challenge to access information in this data element.
- Department of Social Development has identified funding to be used in profiling all teenagers that has fallen pregnant 2015/16 and current financial year. The rationale for profiling young women is to identify casual factors that led into pregnancy and to assist them to refocus in carrier pathing. The outcome of this profiling will inform future intervention programmes.
- Currently the DOE has employed 56 LSA’S. LSA’S are youth employed in selected schools, responsible for addressing social issues and promoting my life my future campaign.
Strategic Objective 2: Prevention of HIV, STI’S & TB Infections of PMTCT.

Baby antibody test positive at 18 months rate

- Q4 2016/17: 1%
- Q1 2017/18: 1%

Infant 1st PCR test positive around 10 weeks rate

- Q4 2016/17: 1%
- Q1 2017/18: 1%
The target was reached due to good MMC uptake during the winter school holiday camps.

The target is inclusive of all age groups.
Maternal women’s & child health

Infant Deaths in public Health facilities

- Q4 2016/17: 29
- Q1 2017/18: 50

Number of maternal deaths in public health facilities

- Q4 2016/17: 2
- Q1 2017/18: 1
Maternal women’s & child health

Infant Deaths in public Health facilities

- High rate of death were due to prematurity and congenital abnormalities. Hlabisa 17%, Mseleni 14.2%, Bethesda 10.4%.

Remedial Action:
- Maternity ANMS, Oms, and PHC Supervisors to monitor implementation of BANC, KINC, HBB & ESMOE drills in Q2

Number of maternal deaths in public health facilities

- One maternal death was reported by Hlabisa Hospital due to non obstetrical cause.
TB Treatment

Remedial Action
- Hospital TB Coordinators, Hospital M&E'S FIO's, OMS's and PHC Supervisors to ensure that all TB diagnosed patients are traced and promptly initiated on TB treatment and reported as per guidelines
HIV and Test Counselling

- Target was achieved through 21 HTS campaigns that were conducted (Hlabisa 10, Mseleni 6, Manguzi 1, Mosvold 2 and Bethesda 2)
Prevention of HIV transmission from occupational exposure, sexual violence

- Sexual assault reported in the quarter has decreased from 62 to 28 this is due to integrated awareness campaigns conducted by stakeholders within the Districts.
Sustaining Health and Wellness

Number of patients remaining on ART

- Q4 2016/17: 84359
- Q1 2017/18: 86166

Total number of patients remaining on ART

- Q4 2016/17
- Q1 2017/18
Strategic Objective 5: Coordination, Monitoring & Evaluation

- Mtubatuba Local Council sits as scheduled, however all four submitted their LAC reports as compared to the last quarter.
- LACs to be strengthened by the District.
Number of WACs submitting reports to the LAC

- Local AIDS Council to support and strengthen the WACS, with the assistance of the Health Care Promoter
Future Plans

- To support and strengthen the LAC by the District
- To monitor impact evaluation in all programmes and awareness campaigns implemented on the reporting quarter so as to inform the future intervention programmes.
- Revive nerve center meetings and monitor performance
The Status of the District Implementation Plan

- The District Implementation plan was scheduled for the 28th of August 2017
- Participation from the DAC stakeholders was poor
- The DIP development draft was facilitated by the M&E Team for the Office of the Premier
- District is awaiting for the finalized document from the OTP.
THANK YOU
