RATIONALE FOR DEVELOPING A CITIZENS’ CHARTER

The White Paper on the Transformation of Public Service Delivery (1997) sets out eight transformation priorities, amongst which transforming public service delivery is the key. This is because a transformed South African public service will be judged by one criterion above all: its effectiveness in delivering services that meet the basic needs of all South African citizens. Improved service delivery is therefore the ultimate goal of the public service transformation programme.

The government of KwaZulu-Natal is cognizant of the fact that, over and above their display of a vote of confidence by voting in the present government, the people of the province have also invested their hard-earned money by contributing to the revenue maximization of the state. It is therefore the taxpayers’ money that keeps the government afloat. It therefore becomes the government’s political, economic and moral obligation to serve the taxpayer diligently.

In response to the call to transform public service delivery, the Premier of the province has spearheaded the review of a Citizens’ Charter, using the United Kingdom Model as a template. The Citizens’ Charter spells out WHAT services will be provided and HOW they will be provided, the emphasis being on improving the efficiency and effectiveness of the ways in which services have hitherto been delivered.

Most importantly and through the Citizens’ Charter, the citizens are invited to participate in the monitoring of the efficiency and effectiveness with which delivery of services is affected. This Charter also describes the steps to take in the event of poor service delivery. This is a fresh approach towards commitment to and accountability for service delivery. The reorientation is clearly in favour of the citizen, an effective re-entrenchment of the Batho Pele principles.

The forces driving the development of the Citizens’ Charter are the following:
1. Legal mandate:

1.1 The Constitution of the Republic of South Africa, 1996;

1.2 Public Service Act, 1994

1.4 Public Service Commission Act, 1997

1.5 Public Service Amendment Act, 1998

1.6 Public Finance Management Act, 1999

1.7 Promotion of Administrative Justice Act, 2000

1.8 White Paper on Transforming Public Service Delivery (Batho Pele)

1.9 Public Service Regulations

1.10 Promotion of Access to Information Act, 2000 (Act No. 2 of 2000)

1.11 Other public service legislation

2. Good governance principles, which are concerned with holding a balance between economic and social goals as well as between individual and communal goals, the ultimate aim being to foster good financial, social, ethical and environmental practices.

2.1 Discipline - commitment of the departments to adhere to behaviour that is universally recognized and accepted to be correct and proper;

2.2 Transparency – the ease with which an outsider is able to make meaningful analysis of the actions, economic fundamentals and non-financial matters pertinent to the department because of the availability of the necessary information, given candidly, accurately and timely;

2.3 Independence – Internal processes handled and decisions made objectively allowing no room for undue influences;
2.4 Accountability for decisions and actions taken

2.5 Responsibility – liability to be called to relevant stakeholders, allowing for corrective action and/or penalty for wrongdoing

2.6 Fairness/Equity – acknowledging and respecting the rights of various groups

2.7 Social responsibility – awareness of and response to issues of a social nature, placing high priority on ethical standards and recognition of environmental and human rights issues

2.8 Communication – two-way communication, listening and feedback (iZimbizo) as a way of keeping citizens informed of progress on Government’s activities that affect the lives of citizens

In summary, good governance reflect the value systems of spiritual collectiveness, inclination towards consensus, humility, helpfulness, co-existence (ubuntu), trust and belief in the fairness of human beings, and, perpetual optimism due to a strong belief in the existence of an Omniscient, Omnipotent and Omnipresent superior being.

This Citizens’ Charter aligns itself to the Provincial Growth and Development Strategy. The PGDS is a tool through which alignment of identified priorities and the harmonization of the concomitant interventions can be effected.

The Citizens’ Charter guides the public service of KwaZulu Natal towards providing the platform for the realization of the identified provincial priorities.

The PGDS responds to the developmental challenges of the province and the Citizens’ Charter undertakes to orientate the public servants to be a vehicle to deliver services in an attempt to overcome the challenges facing KwaZulu Natal as a developmental province.

In delivering services to the citizens of KwaZulu-Natal, the public servants will be guided by the Batho Pele principles. They therefore commit themselves to the following:

MR ME DLUNGWANE
Member of Executive Council
for Education

DEPARTMENT OF EDUCATION
1. PLANNED POLICY INITIATIVES

In identifying policy initiatives, the focus is on researched findings as well as challenges experienced by learners and employees. The areas for development and review have been prioritized taking into account all strategic issues that affect operations in schools, especially learners and teachers. The Department has identified the following key areas as priorities for this MTSF cycle.

1.1. Transformation of the Schooling System

1.2. Empowering Curriculum

1.3 Confident, Engaged and healthy learners
   1.3.1. Confident and engaged learners
   1.3.2. Healthy Learners
   - Mitigating the effects of hidden costs to education
   - National School Nutrition Programme
   - School Safety

Promoting and ensuring the safety of learners and educators in schools has been one of the biggest challenges facing the education system. Government has introduced numerous programmes to stem the tide of violence besetting schools. School management teams and learners have participated in training programmes aimed at assisting them in dealing with crime and violence.

1.3.3. Well governed and managed schools

An important lever to govern and manage schools well is the devolvement of power to local management structures. The devolvement of power to District Directors is a critical gap in the delegation of authority by the Department. The gap is in the provision of minimum powers to districts aimed at:

a. Reducing bureaucratic delays in service delivery by allowing efficient decision making processes closer to operations
b. Enhancing measures of enforcing policy compliance by making more officials accountable
c. Strengthening districts to be able to support schools more efficiently and effectively

1.3.4. Active Community Participation in Education

Ensuring the active participation of various interest groups, in particular teachers, parents, workers, students, employers, and the broader community contribute to improved school administration. It is also important that schools maintain their status as places for hope, especially for the young, to a successful professional career. School governing bodies also can play a vital role in achieving this objective and should be more directly involve in the issue of criminality, and ad hoc initiatives should be carried out in cooperation with the local community. Establishing better links and partnerships between education and the world of work is also one of the primary objectives of the Department.

1.3.5 Adequate Resources of high quality

The areas of priority are:

- Grade R classrooms
- NSNP kitchens
- Sportsfields – (cost vary from R3m – R10m depending on terrain.)
- Staff Accommodation
- Maintenance of school and office infrastructure
- Poor day to day maintenance (use of school funding norms and standards allocation)
- Provision of water and sanitation facilities
- General buildings
- Determining District priorities and needs with poor information
- Enhance capacity to deliver according to policy imperatives
- IDMS proposes Department of Public Works be the implementing agent of choice
1.4. KwaZulu-Natal Initiative to Improve Learning Outcomes (KZNIILO)

Business leaders, educationists, NGOs and donors who have contributed to the model have recognised that:

- There is a comprehensive existing research base that identifies significant systemic problems impacting on learning outcomes;
- There is a significant knowledge base regarding the relationship between education practice and interventions associated with learning outcomes from both multivariate studies and school effectiveness studies;
- The evidence-based approach of the Action Plan of the Department of Basic Education and the National Development Plan has drawn closely from this research and provide a credible basis for action. Government has clear focus and priorities, and its social partners support these.

Background

The government of the Province of KwaZulu-Natal under the leadership of Honourable Premier Mr TW MCHUNU is proud to inform the citizens of KwaZulu-Natal of their rights as individuals, and the commitment of the province to protect these rights by launching the Service Rights Charter.

This Charter has been developed from the Bill of Rights provided in Chapter 2, Sections 7 to 39 of the Constitution of South Africa, 1996 and deals with areas pertaining to service delivery.

The roll-out is a fulfillment of the pronouncement made in the KwaZulu- Natal Provincial Citizens’ Charter that the citizens will be provided with information mapping out the route to follow should service standards be compromised. It is in this context therefore that the government first identifies for your information the rights that you have as South Africans and as citizens of KwaZulu-Natal.

This Charter is therefore the cornerstone of public service delivery, the contents of which the KwaZulu Natal Provincial Administration undertakes to respect, protect and abide by. It is the enshrinement of the rights of the people of KwaZulu Natal and affirms administrative values of efficient, economic, fair and courteous delivery of services.

The rights contained herein are subject to certain limitations, but the limitations themselves will be based on their reasonableness and justifiability... “in an open democratic society, based on human dignity, equality and freedom” (The Constitution of the Republic of South Africa, 1996: Section 36).

Amongst factors that are considered are the following:

a. The nature of the right;
b. The importance of the purpose of the limitation;
c. The nature and extent of the limitation;
d. The relation between the limitation and its purpose, and
e. Less restrictive means to achieve the purpose.
The provincial administration will take reasonable measures, within its available resources, to achieve progressive realization of each of the rights indicated hereunder.

In summary, the Service Rights Charter supports an undertaking to which the government of the Province of KwaZulu-Natal pledges itself, thereby entrenching the rights of its citizens to service excellence.

Application

This Charter applies to all citizens of KwaZulu Natal as beneficiaries to the KwaZulu Natal Provincial Citizens’ Charter, Provincial Departments’ Service Commitment Charters and Service Delivery Improvement Plans. It binds all organs of the KwaZulu Natal Provincial Administration.

KNOW YOUR SERVICE RIGHTS

Citizenship

It is your right to be a citizen of the Republic of South Africa and benefit from that citizenship in terms of services, and this right shall not be taken away from you.

Housing

Each one of you has a right to have access to adequate housing. The provincial administration shall take reasonable legislative and other measures, within available resources, to achieve the progressive realization of this right. Just administrative action

Everyone has the right to administrative action that is lawful, reasonable and procedurally fair, as well as a right to be given written reasons should his/her rights be adversely affected.

Enforcement of your service rights:

Citizens have the right to approach our offices as contemplated in the compliments and complaints procedure, alleging that a right that appears in this document has been infringed or threatened. The outlined procedures do not preclude a citizen from taking their concerns to higher authorities if they deem it necessary, reasonable and justifiable.
Interpretation of this Service Rights Charter:

The Provincial Administration of KwaZulu Natal will interpret the rights that appear in this document to promote the values that underlie its commitment to a service delivery environment that puts the people of KwaZulu Natal first. This is in line with the Batho Pele principles, the KwaZulu Natal Provincial Citizens’ Charter, Departmental Service Commitment Charters and Departmental Service Delivery Improvement Plans.

COMPLIMENTS AND COMPLAINTS PROCEDURES

We would like to afford you the right to written reasons for administrative action as contemplated in section 33 of the Constitution of the Republic of South Africa, 1996. The Promotion of Administrative Justice Act, 2000 serves as a background to our procedures.

“If the promised standard of service is not delivered, citizens will be offered an apology, a full explanation and a speedy and effective remedy. When complaints are made, citizens will receive a sympathetic, positive response.”

In line with the commitment in the KwaZulu Natal Citizens’ Charter, provincial administration presents this complaints procedure. The procedure has been developed for implementation by all provincial government departments.

It is the aim of provincial administration to ensure positive redress and deal with your complaints in a way that will satisfy you as our valued citizen. We invite you to use all available avenues to help us to do things right the first time.

Compliments:

We would also like to recognize, acknowledge and reward service excellence on the part of the public servants who put an extra effort in making the people of KwaZulu-Natal feel that indeed they come first. Help us give credit to those who go the extra mile to instill a sense of efficiency in our service delivery systems. You, our valued citizens will be making a remarkable input when you tell us about those you feel deserve accolades and compliments in our administration.
It would be appreciated if your compliments could be put in writing as this would assist our recording systems and simplify our reference systems.

Your suggestions are most welcome, so please write to us (you will find our contact details at the end of this procedures document).

**Informal complaints:**

In an attempt to deal with your complaints as speedily as possible, you are advised to bring your complaint to the attention of the official at the frontline desk as soon as things go ‘wrong’. Make an attempt to resolve the issue with the official. If you do not receive any satisfaction from this, however, formal complaints procedures are your next available option.

**Formal complaints procedure:**

**Level 1: This can be done at the immediate work station**

a) Get the details of the head / supervisor of the work station to register your complaint;

b) Lodge your complaint verbally or in writing. Written complaints are more advisable;

c) Provide full details of the complaint;

d) Provide all details that would assist when we have to contact you. This is necessary for follow-up investigations and reporting purposes;

e) Request an indication of when you could expect a response from the office.

If you are not satisfied with the response to your complaint by the head of the work station, you can resort to higher authorities for possible redress.
Level 2: Higher Authorities

a) Address your complaint to the Head of Department, requesting a review of the decision of the head of the work station;
b) Lodge your complaint in writing, and
c) Follow steps c to e above.

The Provincial Administration undertakes the following:

a) To acknowledge your complaint within three working days from the date of receipt;
b) To attach the necessary level of confidentiality to your complaint;
c) Investigate thoroughly the complaint;
d) Provide an approximation of how long it will take to resolve the complaint;

Extend the necessary apology;

Explain fully the actions of our officials, and

Initiate a speedy and effective remedy.

The following might be useful in dealing with a complaint:

a) Your name and contact details;
b) The domain(s) concerned;
c) A description of your concern / complaint, and
d) Steps you would like to see taken.

The citizens of KwaZulu Natal always have the option of raising their complaints with the Office of the Public Protector. We however want to appeal to you to first utilize the process outlined above. It is our aim to ensure a sympathetic remedy to any mistakes that might have been committed in the line of duty, within the ambit of the KwaZulu Natal Provincial Administration.
Remember, your satisfaction is our ultimate goal. We want to deliver to you the service that you rightly deserve.

Please direct your service delivery compliments, complaints, concerns and suggestions to:
