I	T								
			Number of square metres of non-motorised transport facility constructed	500	0	This indicator was under a chieved because there were delays on D1252 and P16-3 and that was due to the following reasons:-1) Delays in the approval of the variation due to additional quantities and work was halte as the contractors order was exhausted. 2) There were COVID 19 positive cases which meant work being halted for a couple of days. Additionally since this indicator was planned to be constructed using labour intensive methods, this meant lower production as the numbers had to be reduced due to COVID 19 level restrictions.	The contractor is progressing well on D1252 and the output will be achieved in Quarter 2. 2)The variation order on P16-3 was approved and the contractor has established back on site, and d outputs will be reported in Q3 and Q4	25000	0
			Number of square metres of surfaced roads rehabilitated	20000	120315	Outputs are only reported once line marking and road studs are completed. These items were awarded to sub contractors which were outstanding for completion to be reached but they did not reach the targeted output due to challenges that emerging contractors are faced with. This caused delays in reporting the expected balance of 79 685 m2 on P2-3.		1800000	120315
		Sub-Programme 2.5: Maintenance	Number of kilometres of gravel road re-graveiled	150	420.80	The Department had anticipated to achieve some outputs in the fourth quarter of last financial year, but there were delays in awarding some of these contracts which then became carry overs to this quarter. These projects were from the approval of 10.2 Delegation on flood damaged projects last financial year (L2719, D1303, L1338, P314, D1322 & L1177), and some projects were supporting the fight against COVID 19 as the roads were to critical health	The Department will continue to ensure the communities are able to have access by regravelling before the rainy season in the third quarter.	1560	420.8
			Number of kilometres of gravel roads bladed	7000	14847.81	facilities (D1099, D954, P75-2). This indicator was over achieved due to flood damaged	The Department will continue to ensure that communities are able to have access by blading until the roads can be re-gravelled when required	90000	14847.81
			Number of square metres of blacktop patching (including pathole repairs)	30000	31477.80	This indicator was overachieved mostly in the Umgungundlovu and Harry Gwala District. This was due to heavy rains that happened in the 4th quarter of the last	The Department will continue to ensure the roads are safe for road users by fast tracking the recruitment of VRRM participants which were assisting in beefing up the internal pothole patching teams. This will assist to be able to respond to any new potholes.	500000	31477.8

1	I							
		Number of vehicles stopped and checked	175000	176839	During this quarter the Directorate over achieved by 6 8 This is due to an Increased number of multi-disciplinary operations and requests from South African Police Services (SAPS) for extra operations during the Easter period	39. The Directorate will continuously monitor the targets at Regional, Station and Head office level	759000	176839
		Number of vehicles weighed	45000	17032	During this quarter the Directorate under achieved by 27 968. This target was not met due to the following weighbridges having various problems — Westmead weighbridge (Pinetown) encountered IT problems which was resolved towards the end of the first quarter. Newcastle and One-tree Hill have infrastructure issues.	first quarter and to achieve the second quarter targets. The		17032
		Number of weighbridges operating for 24 hours	1	0	During the 1st quarter the Directorate planned to condurt one 24 hour weighbridge operation, however, this was not achieved due to officers being redeployed to testing centres to deal with the backlogs in respect of Learners and Driving Licence Testing that was created during the lockdown period	et In the second quarter Midway and Mkondeni weighbridges will of conduct 24 hr. operations in order to meet the shortfall of the first quarter	i	0
Programme 5: Community Based Programmes	Sub-Programme 5.2: Community Development	Number of businesses trained	50	31	The under achievement was due to delays of awarding su contracts on capital projects as there have been some project terminations and stoppages due to various reasons like community and business forum protests and so forth.	bb The Department will ensure stakeholder engagement through PLC and other community structures.	400	31
		Number of contracts awarded to Exempted Micro Enterprises (EMEs)	100	251	There were contracts that were not awarded in Quarter 4 of 2020/21. The delay was due to the adjustment of tender documents to accommodate COVID 19 safety requirements and the amendment of tender documents from Committee OF Land Transport Officials (COLTO) to Committee of Transport Officials (COTO) standards. Therefore, these contracts were awarded in Quarter 1 of 2021/22		750	251
		Number of contracts awarded to Qualifying Small Enterprises (QSEs)	4	32	Due to the current economic challenges faced by Businesses, there we more QSE's that tendered for small contracts for a minimum value of less than R1 million. Department usual offered more smaller contracts compares to high value contracts. In addition, the level of turn over allowed them to be more competitive compares to EMEs. During the time Department set the target it was based on the assumptions that QSE tendered for R10 million and above contracts. More QSE has been responding to work they can access regardless of quantity, as results the on Q1, number of contracts awarded to QSE's is way higher that the planned target. Hence, we have overachieved. The Department has no control over how SMME's will respond on the market conditions.	using the current financial year output as a baseline.	25	32
		Number of persons with disabilities trained	0	0	The procurement of the service provider is underway, therefore this indicator is planned for the 4th quarter	Department to ensure that SCM processes are completed on time.	932	0
		Number of sub-contracts awarded on contracts above RIOm	30	37	The overachievement is due to the main contractors amending subcontracting roll out plans. This is caused by communities and business forums demanding the main contractors to appoint more subcontractors than initially plenned.	The Department will ensure stakeholder engagement through PLC and other community structures.	100	37
		Number of women trained	50	105	has set aside budget in all their projects for the National	The target will be adjusted to accommodate the combination of National Youth Services (NYS) programme and Transportation infrastructure and District Services (TIDS) projects.	1500	105
		Number of youth (18-35 years old) trained	50	168	has set aside budget in all their projects for the National	The target will be adjusted to accommodate the combination of National Youth Services (NYS) programme and Transportation Infrastructure and District Services (TIDS) projects.	000	168

Monday, August 2, 2021 8:38:37 AM

	Number of Zibambele participants employed	36500	30372	The 1st quarter targets were under achieved due to non- replacement of deceased participants, participants who have reached pensionable age, and participants who have exited to other programmes/projects. The challenge of renewals was compounded by the fact that a new approach had to be undertaken to conduct the replacement/contract renewal process in the midst of the COVID 19 pandemic. Prior to COVID 19, renewals were conducted in groups whilst during COVID 19 the Department was relying on individual participants coming into the office to do renewal of employment contracts	Zibambele participants employment contracts instead of following the approach of individuals presenting themselves at the Department.		0
	Value of contracts awarded to Exempted Micro Enterprise (EMEs)	s 150	240.5	There were contracts that were not awarded in Quarter 4 of 2020/21. The delay was due to the adjustment of tender documents to accommodate COVID 19 safety requirements and the amendment of tender documents from Committee Of Land Transport Officials (COIT) to Committee of Transport Officials (COT) andards. Therefore, these contracts were awarded in Quarter 1 of 2021/22	All tender documents will incorporate COVID 19 safety regulations and new COTO standards	700	240.5
	Value of contracts awarded to public transport transformation contractors	64	67	The over achievement is due to the increase in the escalation.	The amount paid to the empowerment contract is very dependent on which direction the escalation factor goes.	268	67
	Value of contracts awarded to Qualifying Small Enterprises (QSEs)		25.8	The planning of the targets was done in relation to that QSEs will be awarded projects equivalent to the annual total revenue thresholds for EMEs and QSE. However, most QSEs were awarded contracts of a less value as compared to their annual turnover threshold.	Department will review the target in the next financial year using the current financial year output as a baseline.	1000	25.8
	Value of sub-contracts awarded on contracts above R10m	70	32.2	The underachievement was due to the capital project termination and delays caused by financial constraints experienced by main contractors, which affected the procurement of sub-contracting. The process of terminating contractors and appointing new contractors is also time consuming, Local communities and business forums contribute to delays where they demand control over selection of contractors to be subcontracted.	The Department will ensure stakeholder engagement through PLC and other community structures.	700	32.2
ne 5.4: EPWP Co-ordination and	Number of employment days created	915975		delays in the commencement of planned Mass Job creation programmes such as the National Youth Service (NYS), People with Disabilities, establishment of Kerbyard	To promote the Labour intensive strategies on infrastructure projects. This will result in participants working longer person - days on projects then FTEs will be achieved. Department to address administrative inefficiencies which result in the delays in the implementation of planned projects	4370000	533691
				The 1st quarter targets were underachieved due to the delays in the commencement of planned Mass Job creation programmes such as the National Youth Service (NYS), People with Disabilities, establishment of Kerbyard to produce presast concrete units, and noncommencement of planned projects (maintenance, rehabilitation and reseals, road upgrades, bridges, sidewalks)	Department to address administrative inefficiencies which result in delays in the implementation of planned projects/programmes	19000	2320
N	lumber of jobs created	90070		The 1st quarter targets were underachieved due to the delays in the commencement of planned Mass Job creation programmes such as the National Youth Service (NYS), People with Disabilities, establishment of Kerbyard to produce precast concrete units, and non-commencement of planned projects (maintenance, rehabilitation and reseals, road upgrades, bridges, sidewalks)	Department to address administrative inefficiencies which result in a lelays in the implementation of planned projects/programmes	19570 s	33487
