PREMIER SIHLE ZIKALALA INAUGURATION

Premier of KwaZulu Natal Honourable Sihle Zikalala used his Inauguration speech on 27 May 2019 to remind the residents of our province that unless the majority becomes free economically, the project of liberation will not be complete. Quoting from the Bible, Premier Zikalala said his government would continue to prioritise the needs of the poor because it is not human to suffer:

"We commit to attain fundamental and radical socio-economic development for betterment of all people. There is no humanity born to suffer injustices, indignity. We draw courage and wisdom from the holy Bible, Psalm 9 verse 13 which says, ***"for the needy shall not always be forgotten. The expectations of the poor shall not perish forever", said Zikalala.***

Premier Zikalala said the province's sixth administration would work hard to deliver the national goal of achieving a "united, non-racial, non-sexist, just, and prosperous society that is free of poverty, unemployment, crime and instability."

In order to achieve this, the Premier said he would work with all parties in the KwaZulu Natal Legislature and all stakeholders in the province.

"As the provincial government, we pledge to work and cooperate with all political parties in the Legislature. We take a solemn vow that we will service the people of KwaZulu-Natal without regard to their political affiliation, creed, status, or location. We are a creation of a people's movement, the African National Congress, which embodies and cherishes the best values of human civilisation.

We are tolerant to a multiplicity of divergent views, yet remain steadfastly principled and uncompromising on our goal to unite our nation and deliver a better life for all," said Premier Zikalala.

In line with the message delivered by President Cyril Ramaphosa during his inauguration Premier Zikalala also promised fewer words, and more action:

"President Ramaphosa reminded us that South Africans want action and not just words and promise and that South Africans yearn for a society defined by equality, by solidarity, by a shared humanity".

In this regard, Premier Zikalala identified the following priorities to be achieved over the next five years which would be based on the National Development Plan, the KZN Provincial Growth and Development Strategy.

Priority No.1 - Basic Services
"Our province has made progress in many areas on the provision of water. However, due to factors like climate change, environmental degradation, ageing and dilapidated infrastructure, progress has been reversed. We will coordinate with District Councils to assess their status on provision of water and develop a comprehensive plan to ensure we meet this demand as a key and urgent deliverable amongst the basic needs of our citizens".

Priority No.2 - Job Creation
"With regard to the unacceptably high level of unemployment We will support skills development programmes to better equip our people with relevant skills and stimulate industries that will create jobs.

- Developing a dedicated support mechanism and infrastructure to enhance manufacturing, given that most of the manufacturing activities create more jobs.
- Develop a dedicated support to clothing and textile through exploring possible incentives or establishing a dedicated Special Economic Zone for Textile.
- Provide a comprehensive support package to KZN farmers so that they can become more productive and profitable.
- We will engage National Government in conducting assessment of all farms that have been returned back to communities and reactivate those farms so that land distributed to our people is utilised productively.

Priority No 3 - Growing the Economy
The provincial government will:

- Work towards the Presidential Investment Conference by attracting more investors to the province.
- Ensure the implementation of all catalytic investment projects by setting up a permanent coordination mechanism which will support project promoters to fast-track implementation.
- Ensure the implementation of District Industrial Hubs and comprehensive support for industrial parks such as KwaSithebe, Ladysmith and Newcastle. These will be linked to our two Special Economic Zones namely Dube Trade Port and Richards Bay Economic Development Zones.

Priority No.4 - Growing SMMEs and Cooperative
In order to address poverty which creates a vicious cycle of hunger, indignity, and insecurity and contributes to social instability, crime and moral decay. A thriving economy, in a national democratic society, requires efficient markets that address the racial and gender exclusions of the apartheid past as well as address the peri-urban squalor and grinding rural poverty.

- Over the next five years we pursue Radical Economic Transformation Programme - Operation Vula by ensuring government procures from local small and micro enterprises and cooperatives.

- The Department of Economic Development, Tourism and Environmental Affairs will launch the Operation Vula Fund to provide financial support to feasible SMMEs and Cooperatives and develop rural areas and rebuild these areas as engines of national and provincial economic development.

Priority No. 5 - Education and Skills Development
The provincial government will continue with plans to provide access to education, including ensuring that children at the age of three years attend Early Childhood Development. It will also move with speed to ensure that secondary education fully embraces technical skills and the evolving Fourth Industrial Revolution.

Priority No. 6 - Human Settlement and sustainable livelihood
We will continue with the provision of houses and ensuring a sustainable livelihood to all our people. In the last financial year the department detailed mega housing projects which absorbed more people.

The Province will deliver no less than 125 000 units. Municipalities will be positioned to ensure implementation, monitoring and delivery of projects targeting these communities living in transit camps.

Priority No. 7 - Build a Peaceful Province
To build a peaceful KwaZulu-Natal we will address violence and crime and ensure the implementation of all recommendations of the Moerane Commission which probed the killing of political leaders and activists. We will be supported by the National Task Team which is investigating cases related to the killing of political leaders.

At the same time we will ensure the functioning of community policing forums to help mobilise communities to work in support of the law enforcement agencies.

Priority No. 8 - Build a caring and incorruptible government
It will be our priority to make sure that all departments are fully functional, effective, and strictly adhere to the public service principles of Batho-Pele. We call on all government employees to serve our people honestly, with respect and diligence.

The Premier's Office will embark on Operation Siyahlola which will focus on the functioning of the departments, government service centres and monitoring the implementation of government projects.

The Premier stressed the important role played by traditional leaders without whom there would be violence and no development in many areas of our province.

In particular the Premier thanked His Majesty for his role in leading the province on key matters such as fighting the scourge of HIV and AIDS:

"Without His Majesty, uHlanga Lomhlabathi, we would still be trapped in perpetual conflict and violence.

We applaud iSilo for his exemplary and unparalleled leadership in the fight against the spread of the HIV epidemic. Today more than a million males have undergone medical male circumcision, many more men and women are constantly engaged in number of programme that seek to instil good human behaviour and ubuntu.

Our King, who values education deeply, is also a champion of improving learning outcomes at our schools," said Premier Zikalala.

The Premier also thanked the faith-based community, business, the academics and professional classes for choosing to work and live in KZN and whose skills will be needed to create a truly vibrant and successful economy and successful society.

In conclusion Premier Zikalala said: "We will strive to work tirelessly and great dedication.

As revolutionaries, we are nothing but the servants of the people.

There shall be no space to rest when our people suffers poverty, unemployment and poverty.

There shall be no joy relation when lives of the people are still ruined by crime, violence, abuse and drugs."

"As Premier for all the people of KZN, I invite you all to partner with our government in forging a lasting social compact to drastically reduce the scourges of poverty, unemployment, and inequality.

It is in our hands to build and sustain a resilient partnership".
