KWAZULU-NATAL PREMIER EXPLORES THE GENERATION OF RENEWABLE ENERGY THROUGH RECREATION

PARIS: KWAZULU-Natal Premier Mr Senzo Mchunu visited an inner-city renewable energy generation project located on Champs-Elysees in Paris, France. This project has been set-up to mark COP21, which is promoting the generation of. The project generates 100 percent renewable energy from bicycle and swing. The energy generated through running, pedaling and swinging is used to light up the Champs-Elysees. An impressed Mchunu, got onto one bicycle and pedaled to contribute. He said "this we may neing on one of the bicycles. Asked what his view of this innovation, he
