# Zululand District Aids Council Report to KPCA

---

*Presented by;  
Cllr. BM Nxusa,  
Mayor of eDumbe Municipality on behalf of  
Chairperson for Zululand District AIDS Council*

---

# Introduction

- This report is the summary outline of what has mostly been happening in our District during this reporting quarter in terms of responding to HIV & AIDS, STIs, TB and other developmental issues.
- It is a collective report compiled from deliverables of all sectors and or Departments, especially the social cluster.
- It mainly focuses on the co-ordination of programmes within the Zululand District in responding to basic health challenges, primarily HIV & AIDS, STIs, TB and strengthening of OSS and its initiatives.

# Community Mobilisation

Indicator	Output	Comments
<ul style="list-style-type: none"><li>Number of people aged 25-49 reached with prevention information including anti-gender based violence information</li></ul>	17 104 by DOH	These clients are reached through CCGs. District still has to improve data to include partners contribution
<ul style="list-style-type: none"><li>Number of young people aged 15- 24 reached with prevention information including anti-gender based violence information</li></ul>	443 by DOH 40 665 males and 56280 females seen by Humana People to people from July to December 2012	There are many more people reached by other stakeholders who are not counted here. The district still has agree on reliable reporting systems

# Orphans & Vulnerable Children and Life Skills

Indicator	TARGET	Q1	Q2	Q3	CHALLENGE	ACTION
• Number of registered OVC	4200	1109	1917	431	<ul style="list-style-type: none"> <li>• Early identification of ovc due to insufficient community caregivers (CCGs) operating in wards</li> <li>• CCGs not yet trained on the integrated community caregiver are foundation course</li> </ul>	<ul style="list-style-type: none"> <li>• Ensure appointment of Community Caregivers in all wards</li> <li>• Training of Community care givers</li> </ul>
• Number of registered OVC in schools	8333	932	1235	872	<ul style="list-style-type: none"> <li>• No proper tracking system for ovc's in schools</li> </ul>	<ul style="list-style-type: none"> <li>• Concerned departments(DOE &amp;DSD) to work on the tracking system of ovc's in schools</li> </ul>
• Number of registered OVC receiving care and support	10937	948	1992	1432	<ul style="list-style-type: none"> <li>• Not all ovc's receive care and support due to limited resources</li> </ul>	<ul style="list-style-type: none"> <li>• To source funds from other donors working with ovc's</li> </ul>
• Number of learners pregnant		636		550	<ul style="list-style-type: none"> <li>• Poor parental support &amp; community participation in addressing learner pregnancy in schools.</li> </ul>	<ul style="list-style-type: none"> <li>Involvement of SGBs, Parents, Community members &amp; other interest groups in HIV &amp; AIDS programmes</li> </ul>

# Prevention of Mother to Child Transmission

Indicator	TARGET	Q1	Q2	Q3	CHALLENGE	ACTIVITY
Baby PCR tested positive around 6 weeks rate	<2%	3%	2%	3%	Late booking contributes to vertical transmission.	Early identification of pregnant women by CCGs and referral to clinics.  Fast tracking of eligible HIV positive pregnant women to access ARVs
Baby HIV antibody test positive at 18 months rate	<3%	3%	4%	2%	There is a steady decline in babies who test HIV positive at 18 months	To continue with health education at all times and support for good infant feeding practices.
ANC booking before 20 weeks rate	50%	45%	47.8%	51%	There is a gradual increase noted each quarter.	To continue with health education and active identification of pregnant women by all health workers at all levels. To continue to involve stake holders

# HCT, Condom Distribution & MMC

Indicators	Annual Target	Q1	Q2	Q3	output	Comments
Number of new HIV test carried out	278188	43942	50159	38826	139659	District to recruit HCT coordinator
Number of male condoms distributed	15 969595	3666428	3443788	5150730	12 260946	District is on target at 76.7%. District performance has improved due to the contribution of NGO/CBO partners as well as CCGs.
Number of female condoms distributed	263066	40775	48881	58053	147707	There is a continued improvement in the number of female condoms distributed.
Number of males aged 15-49 circumcised	13613	1957	2015	1402	5474	The program seems to only attract school going population who are mainly available during school holidays. Need to work hard in motivating targeted men to agree to be circumcised.

# Prevention of Exposure to transmission from occupational exposure and Sexual violence

Indicator	TARGET	Q1	Q2	Q3	Comments
• Number of new sexual assault cases	562	161	140	165	The number of people reporting sexual assault seems to be stabilized around 155.
• Children under 12 years sexually assaulted rate	Reduce from 34% to 5% of new sexual assaults.	45%	47%	57%	There is a steady increase in the number of children who are sexually assaulted. The district has to come up with a strategy to involve all stakeholders

# Coordination, Monitoring & Evaluation

Indicator	Output	Comments
• Number of LACs Holding Meetings as scheduled	02	Non adherence to LAC meetings schedule as submitted to DAC.
• Number of LACs submitting reports to DAC	05	There is still a challenge on timely submission though all LACs submit.
• Number of WACs submitting reports to LAC	01	Training of WACs secretariat(CDWs Youth Ambassadors is underway) to improve reporting.
• Number of functional War rooms	90	Some wards have more than one War room due to wideness

# Severe Acute Malnutrition:

## April 2012 – January 2013

- No of Children <5 admitted: 96
- No of deaths from SAM: 20
- <5 Years ambulatory: 439
- <5 Years underweight: 748
- <5 Years not gaining weight: 1 044
- Underweight adults HIV + receiving supplements: 9 004
- Underweight TB adults receiving supplements: 3 112
- Underweight Pregnant women receiving supplements: 516
