| 2 | Number of WACs submitting reports to LAC | 89 | 05 | 02 | 00 | 07 |

Comments

There is a need to strengthen functionality of WACs hence the decline on submission of reports. The key challenge remains the participation of Councillors in convening meetings and also the structuring of WACs on the issue of some people who are ward committee members receiving stipend against those who are not ward committee members but all serving a WAC. DAC in partnership with SHIPP in a process of training Political Leadership (councillors) on their role is coordination and legislative framework as per HIV & AIDS Local Government Framework.
